DEPARTMENT OF COMMERCIAL INTELLIGENCE AND STATISTICS, INDIA

Agricultural Statistics of India

1922=23

Volume I

**Area, Classification of Area, Area under Irrigation,
Area under Crops, Live-Stock, Land Revenue Assess-
ment, and Harvest Prices in British India**

Published by order of the Governor-General in Council

CALCUTTA : GOVERNMENT OF INDIA
CENTRAL PUBLICATION BRANCH
1925

PRICE 12 AS. 01 RS. 4d.

Publications of the Department of Commercial Intelligence and Statistics, India:

[Publications noted below are obtainable from the Government of India Central Publication Branch, 8, Hastings Street, Calcutta, and all agents for the sale of Government publications. Remittances should be made by postal or money order and should include forwarding charges, as indicated in brackets after each price.]

WEEKLY.

1. *Indian Trade Journal*—Annual Subscription (including postage) ; Indian, R13 Foreign, and R18. Single copies (excluding postage) :—Current issue As. 4 ; Back numbers over three months old R1 each.
[Orders may be placed, with prepayment, for particular issues of the Journal, e.g., issues containing Crop Forecasts or those having special supplements.]

FORTNIGHTLY.

2. Return showing the Wholesale and Retail Prices of certain staple cereals, pulses, oilseeds, sugar (raw), salt, etc., in India by districts. As. 6. (2a.) Yearly Subscription R12 post free.

MONTHLY.

3. Accounts relating to the Sea-borne Trade and Navigation of British India. R1-4. (4a.) Yearly Subscription R18 post free.
4. Accounts relating to the Trade by Land of British India with foreign countries. As. 8. (2a.) Yearly Subscription R7-8 post free.
5. Monthly Statistics of Cotton Spinning and Weaving in Indian Mills. As. 2. (1a.) Yearly Subscription R2-4 post free.
6. Indian Customs Revenue. Half anna. Yearly Subscription As. 12 post free.
7. Joint-Stock Companies registered in British India and in the Indian States of Mysore, Baroda, Travancore and Hyderabad. As. 2. (1a.) Yearly subscription R2-4 post free. (Supplement to the *Indian Trade Journal*.)

ANNUAL.

8. Review of the Trade of India. R1-4. (2s. 3d.)
9. Accounts relating to the Sea-borne Trade of British India for the Calendar year. R1-5. (2a.)
10. Annual Statement of the Foreign Sea-borne Trade and Navigation of British India :—
Vol. I.—Abstract and detailed Tables of Imports and Exports. R8. (R1-7.)
Vol. II.—Abstract and detailed Tables of Trade and Shipping with each country and at each port, and tables relating to the trade of Aden and of the French Possessions in India. R7-10. (R1-9.)
11. Prices and Wages in India. R2. (9a.)
12. Statistical Abstract for British India. R1-12. (10a.)
13. Agricultural Statistics of India—
Vol. I.—British India. R1-2. (4a.)
Vol. II.—Indian States. As. 15. (4a.)
14. Summary Tables of the Agricultural Statistics of British India. As. 2. (1a.) (Supplement to the *Indian Trade Journal*.)
15. Estimates of Area and Yield of Principal Crops in India. As. 9. (2a.)
16. Indian Tea Statistics. As. 2. (1a.) (Supplement to the *Indian Trade Journal*.)
17. Report on the Production and Consumption of Coal in India. As. 9 (2a.) (Supplement to the *Indian Trade Journal*.)
18. Statement relating to Area, Production, Stocks, Exports and Imports of Rubber in India. As. 2. (1a.) (Supplement to the *Indian Trade Journal*.)
19. Indian Coffee Statistics. As. 2. (1a.) (Supplement to the *Indian Trade Journal*.)
20. Joint-Stock Companies in British India and in the Indian States of Mysore, Baroda, Gwalior, Hyderabad, Indore and Travancore. R6 (9a.)
21. Statistical Tables relating to Banks in India. As. 8. (1a. 6p.)
22. Statement showing progress of the Co-operative Movement in India. As. 10. (3a.)
23. Tariff Schedules—Reprint of Schedules II and III of the Indian Tariff Act, VIII of 1894 (as subsequently amended), showing the rates of Customs duties levied on goods imported into, and exported from, British India. As. 3. (1a.)

MISCELLANEOUS.

24. Index Numbers of Indian Prices from 1861—1918 (with addenda for 1919, 1920, 1921, 1922 and 1923). As. 13. (3a.)
25. Crop Forecasts. (Published in the *Indian Trade Journal*.) Per copy As. 4. (1a.)
Rice—1st (October), 2nd (December), Final (February).
Wheat—1st (January), 2nd (March), 3rd (April), 4th (May), Final (August).
Cotton—1st (August), 2nd (October), 3rd (December), Final (February), Supplementary (April).
Linseed, Rape and Mustard (*winter oilseeds*)—1st (January), 2nd (March), Final (June).
Sesamum (*til or jinjili*)—1st (September), 2nd (October), Final (January), Supplementary (April).
Groundnut—1st (October), Final (February).
Indigo—1st (October), Final (December).
Sugarcane—1st (August), 2nd (October), Final (February).
26. Large Industrial Establishments in India. R4. (6a.)
27. Registration and Publication of Statistics relating to the Sea-borne Trade and Navigation of British India. R3-2. (10a.)
28. A manual on the preparation of Crop Forecasts in India. As. 8. (2a.)
29. Cotton Map of India, No. 1—Showing the different varieties of cotton grown in the different districts and States in India. R1. (1a.)
30. Crop Atlas of India. R6-8. (10a.)
31. Quinquennial Report on the Average Yield per Acre of principal Crops in India for the period ending 1921-22. As. 8. (3a.)
32. Report on the First Census of Live-Stock, Ploughs and Carts in India, held between December 1919 and April 1920. As. 4. (2a.)
33. A Classified List of the commodities that enter into the Land Frontier Trade of British India. R1-2. (6a.)

CONTENTS

	PAGES.
INTRODUCTORY NOTE	i—ix
(1) Map of India showing the departure of area sown and that of rainfall in 1922-23 from the average of the preceding ten years	Frontispiece
CHARTS illustrating—	
(2) Total area sown, area under food crops, current fallows (reversed), and variations in rainfall as compared with normal	xi
(3) Total wheat area, unirrigated wheat area, and rainfall in wheat-growing tracts (June to February)	
(4) Total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow, and current fallows	
(5) Total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops	
(6) Area under rice, wheat, millets, oilseeds, cotton, jute, and other crops	
(7) Total area sown and area under different crops	
(8) Total live-stock divided between bovine, ovine, and others	
(9) Shares of provinces in the total area under principal crops	
(10) Harvest prices of some of the principal crops	

SUMMARY TABLES

No.		
1.	General summary, 1903-04 to 1922-23	2—3
2.	Area cultivated and uncultivated in 1922-23	4
3.	Area under irrigation in 1922-23	5
4.	Area under different crops cultivated in 1922-23	6—7
5.	Number of live-stock, ploughs, and carts	8—9
6.	Area assessed and incidence of the land revenue assessment on area and population	10—11
7.	Harvest prices of certain important crops in 1922-23	12
8.	Comparative statement showing acreage under certain crops in various countries of the World in 1923	13

GENERAL TABLES

I.—Area in each province during 1918-19 to 1922-23	14—15
II.—Classification of Area in each province during 1918-19 to 1922-23	16—17
III.—Area under Irrigation in each province during 1918-19 to 1922-23	18—21
IV.—Area under crops and specification of crops in each province during 1918-19 to 1922-23	22—29
V.—Live-stock, ploughs, and carts	30—33
VI.—Incidence of the land revenue assessment on area and population	34—41
VII.—Harvest prices of certain important crops during 1918-19 to 1922-23	42—43

APPENDICES

APPENDIX A—Average yield of principal crops—	
Introductory note	47—49

D—Alphabetical List of Crops cultivated in India with their classification in Table IV	69—75
Index	77—81

Agricultural Statistics of India

1922-23

VOLUME I—BRITISH INDIA

Introductory Note

This annual volume is the thirty-ninth of the series started in 1886 with statistics for 1884-85. As in the previous issue, figures for twenty years are shown in Summary table No. 1, but with a view to effect further economy of space, figures for five years have been shown and figures for certain provinces or parts of provinces which were shown separately in previous issues have been clubbed and shown together in the provincial tables. A map showing the departure from the normal of sown area and that of rainfall in 1922-23 and other charts as detailed in the last paragraph of this note have, as usual, been incorporated in the volume. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Indian States* as far as they are reported.

The statistics are compiled from annual returns furnished by the Governments of Bengal, Bombay, the Central Provinces and Assam; the Chief Commissioner, Coorg, the Revenue Commissioner, North-West Frontier Province, the Commissioner, Ajmer-Merwara, the Commissioner of Settlements and Land Records, Burma, the Directors of Agriculture, Madras and Bihar and Orissa, the Directors of Land Records, the Punjab, and the United Provinces; the Deputy Commissioner, Delhi, and the Political Agent in the Southern States of Central India, Manipur.

The statistics are given in seven separate tables, namely, I—Area; II—Classification of area; III—Area under irrigation; IV—Area under crops; V—Live-stock, ploughs, and carts; VI—Land Revenue assessment; and VII—Harvest prices. The totals of the figures given in these tables are shown in a series of summary tables, to which a table on world crops is added. In addition to these, there are four appendices, namely, Appendix A dealing with the average yields per acre of principal crops in each province; Appendix B containing explanatory notes which are essential for the correct understanding of the different tables for the different provinces; Appendix C giving the meaning of vernacular terms used in the volume; and Appendix D containing an alphabetical list of crops cultivated in India and their classification in Table IV.

The year to which the returns relate ends on 30th June, this being the generally recognised agricultural year, except in Assam where the year is taken to end on 31st March and in the Central Provinces and Berar where it is taken as ending on 31st May. It should, however, be borne in mind that statistics relating to areas irrigated (Table III) and areas under crops and specification of crops (Table IV) generally include both the *kharif* and the *rabi* crops, and therefore actually relate to the year ended with the harvesting of the *rabi* or spring crops.

* In Appendix A (Volume I), however, figures relating to the Mysore State are shown separately.

† These together with district figures are separately published in the Blue Book entitled 'Quinquennial Report the average yield per acre of principal crops in India, 1921-22.'

Total area and
population of India

The total area of India is 1,813,000* square miles, or 1,160,370,000 acres, with a population of 319 millions according to the census of 1921. This may be divided as follows :—

	Acres	Population
(1) British Provinces (including Indian States within the political jurisdiction of Local Governments and Administrations)†	771,807,000	268,358,000
(2) Indian States having direct political relations with the Government of India	337,561,000	47,394,000
(3) Certain specially administered territories in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	16,293,000	2,686,000
(4) British Baluchistan (including administered areas)	31,706,000	421,000
Total	1,160,370,000	318,859,000

No returns of agricultural statistics are prepared either for item (3) certain specially administered territories in the North-West Frontier Province, or for item (4) British Baluchistan.

Table I
Total area

The total area of the British Provinces (item 1 above) dealt with in this volume—771,807,000 acres or 1,206,000 square miles—includes 104,710,000 acres, with a population of some 22 millions, belonging to Indian States‡, which are within the political jurisdiction of Local Governments and Administrations. These States comprise Manipur and the Khasi and Jaintia Hill States in Assam; Cooch Bihar and Tripura in Bengal; the Tributary States of Orissa and Chota Nagpur in Bihar and Orissa; Rampur, Tehri, and Benares in the United Provinces; the Ambala Division States and the Simla Hill States in the Punjab; the Phulera and Upper Tanawal States in the North-West Frontier Province; the Khairpur State, the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States in Bombay; the Chhattisgarh States in the Central Provinces; and the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur in Madras.† Of these States, agricultural statistics are prepared for most of the States in the Punjab and the United Provinces, all the States in Madras, and a few States in Bombay; but they are dealt with in Volume II along with the States having direct political relations with the Government of India (item 2).

Thus, by deducting 104,710,000 acres belonging to Indian States from the total area of 771,807,000 acres included in British Provinces, the remainder, 667,097,000 acres, is shown in Table I, and this represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The agricultural statistics are, however, prepared in a number of provinces or parts of provinces from "village papers," i.e., papers prepared by the village accountants for the purpose of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are: (a) while the surveyed area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas, and (b) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 664,052,000 acres, as against 667,097,000 acres according to the professional survey.

*The difference between this area and that shown in the Census report of 1921 is due mainly to the exclusion of certain tracts of Burma, especially Putao, from the Census return. A considerable part of Putao amounting to over 6 million acres is excluded from the Census report.

†Some of these States have since come under direct political relationship with the Government of India (item 2).

‡These States have recently come under direct political relationship with the Government of India.

This area is, for the purpose of Agricultural Statistics, classified as shown in the margin. About Table II
Classification of
area

	Acres (1,000)	Per cent
Forests	85,592	12.9
Not available for cultivation	152,015	22.9
Culturable waste other than fallow	151,429	23.2
Current fallows	47,070	7.1
Net area sown	224,916	33.9
Total	661,052	100

85,592,000 acres, or 13 per cent of the total, are occupied by forests; and the area not available for cultivation, i.e., land absolutely barren or unculturable or covered by build-

ings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 152,015,000 acres or 23 per cent. The balance, 426,445,000 acres or 64 per cent, represents the area available for cultivation. Of this, 154,429,000 acres, or 23 per cent of the total area, represent culturable waste other than fallow, i.e., land available for cultivation but not taken up, and 47,070,000 acres, or 7 per cent, were kept fallow in the year of report. The net area actually sown with crops during 1922-23 was therefore 224,916,000 acres, or

	Proportion of sown to total area	Population per 100 acres of sown area
Delhi	61 per cent	217
United Provinces	52 "	127
Bihar and Orissa	48 "	133
Bengal	47 "	131
Punjab	46 "	77
Bombay	39 "	59
Central Provinces and Berar	38 "	58
Madras	37 "	125
North-West Frontier Province	27 "	97
Assam	18 "	128
Ajmer-Merwara and Manipur	18 "	157
Coorg	14 "	117
Burma	10 "	81
British India	34 "	108

nearly 34 per cent of the total area, as against 223,184,000 acres in the preceding year, or an increase of one per cent. The proportion of sown to total area and the number of population per 100 acres of sown area in each province are stated in the margin. The proportion of sown to total area in the year under review was highest in Delhi and lowest in Burma. This area, however, excludes areas sown more than once in

the year. If areas sown more than once are taken as separate areas for each crop, the gross sown area in the year of report amounts to 258,829,000 acres, as against 256,582,000 acres in the preceding year.

The term "forests" in the returns of Agricultural Statistics means Forests "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded from that head and entered in the column "net area sown." The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the Reports on the Administration of the Forest Department for various reasons,* the chief amongst which are (1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods, (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers, and (3) certain village and other lands not covered by forests but worked by the Forest Department and returned as forest lands by that Department, are not treated as forests in the returns of Agricultural Statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area (85,592,000 acres in 1922-23), 23 per cent lies in Burma, 19 per cent in the Central Provinces and Berar, 15 per cent in the Madras Presidency, 11 per cent each in the United Provinces and Bombay, and the remaining 21 per cent in the other provinces.

Most of the barren and unculturable lands lies naturally in the hilly Area not available
for cultivation tracts of Burma and of southern India and in the dry and deserty regions of north-western India. Burma contains 36 per cent of the total area of the head "not available for cultivation" (152,015,000 acres in 1922-23), the Madras Presidency 14 per cent, Bombay 13 per cent, and the Punjab 8 per cent.

The head "culturable waste other than fallow" shows lands available for Culturable waste
other than fallow cultivation but not yet taken up. It includes areas such as groves not classed in the area sown and also areas under bamboos and thatching grass when not

* For detailed explanations in respect of provinces, see notes in Appendix B (Table II).

forming parts of forest areas.* Of the total culturable waste land (154,429,000 acres in 1922-23), 40 per cent is in Burma, 11 per cent in Assam, 10 per cent each in the Central Provinces and Berar and the Punjab, 8 per cent in the Madras Presidency, and the remaining 21 per cent in the other provinces.

Current fallows

The maximum period for which land left uncultivated is reckoned as fallow varies according to local laws and customs in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste." Owing to this diversity of practice, the classification of area as "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1922-23 was 47,070,000 acres, as against 50,554,000 acres in the preceding year, or a decrease of 7 per cent.

Table III
Irrigation

	Proportion of irrigated to total sown area	
Punjab	50 per cent	where the rainfall is ordinarily heavy,
North-West Frontier Province	41 "	the crops hardly need the help of
Madras	29 "	irrigation, unless there is an unusual
United Provinces	25 "	scarcity of rain. Of the total area
Ajmer-Merwara and Manipal	27 "	irrigated in 1922-23, the Punjab accounted
Bihar and Orissa	21 "	for 28 per cent, the United Provinces
Delhi	19 "	21 per cent, the Madras Presidency
Bombay	13 "	20 per cent, Bihar and Orissa 11 per
Burma	8 "	cent, Bombay 8 per cent, and the other
Bengal	7 "	provinces the remaining 12 per cent. The
Assam	5 "	proportion of irrigated to total area sown
Central Provinces and Berar	4 "	in each province is stated in the margin.
Coorg	3 "	

The figures of irrigated areas do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas sown more than once as separate areas for each crop, the gross area of irrigated crops was 51,301,000 acres in 1922-23. Of this area about 87 per cent was under food crops and the remainder under non-food crops. Of the former 18,311,000 acres were sown under rice, 9,654,000 acres under wheat, 2,578,000 acres under barley, 1,529,000 acres under jowar, 1,298,000 acres under bajra, 1,019,000 acres under maize, 1,905,000 acres under sugarcane, and the remaining 8,028,000 acres under other food crops. Of the irrigated non-food crop area 1,821,000 acres were occupied by cotton. These statistics of irrigated crops are in some cases defective as explained in the notes in Appendix B and at the foot of Table III (pages 18-21).

Table IV
Area under crops

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements,

* For detailed explanations in respect of provinces, see notes in Appendix B (Table II).

is assigned to the principal crops by the village accountant. In the same province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains, and in this case the whole area of the mixed field is assigned to food-grains.

The gross area cultivated with crops covered, as stated above, nearly 259 million acres in 1922-23. The different classes of crops and the area occupied by each class are stated in the margin. Of the total sown area, food-crops occupied

	Acres (1,000)	Per cent of total
Food-grains	205,027	79.3
Condiments and spices	1,534	0.6
Sugar	2,865	1.1
Fruits and vegetables	5,520	2.1
Miscellaneous food-crops	1,167	0.5
Total food-crops (a)	216,103	83.6
Oilseeds	13,914	5.4
Fibres	15,692	6.1
Dyes and Tanning materials	873	0.3
Drugs and narcotics	2,228	0.8
Fodder crops	8,712	3.1
Miscellaneous non-food crops	961	0.4
Total non-food crops (a)	42,383	16.4

about 216,103,000 acres or 84 per cent and non-food crops about 42,383,000 acres or 16 per cent. Of the food-crops, food-grains (cereals and pulses) covered as much as 205,027,000 acres†, or about 80 per cent of the total area sown, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops* together) some 11,076,000 acres or

only 4 per cent of the total. Of non-food crops, fibres such as cotton, jute, hemp, etc., occupied 15,692,000 acres or 6 per cent of the total area sown, and oilseeds 13,914,000 acres ‡ or 5 per cent. The other non-food crops*—dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 12,777,000 acres or 5 per cent of the total.

The area under food-grains (205,027,000 acres) showed an increase of 236,000 acres only as compared with the preceding year. The actual increase

	1922-23	1921-22	Increase (+) or Decrease (—)
	Acres (1,000)	Acres (1,000)	Acres (1,000)
Rice	80,577	79,700	+ 877
Wheat	21,408	22,401	+ 2,001
Barley	7,401	7,856	+ 45
Jowar	22,835	21,214	—1,370
Bajra	13,921	15,901	—1,977
Ragi	4,262	4,211	+ 51
Maize	5,954	6,335	—381
Gram	10,777	15,055	+ 1,722
Other grains and pulses	28,889	29,015	—720

or decrease under each kind of food-grains is stated in the marginal table. It will be seen that all the important crops except jowar, bajra and maize showed increases. Of the total area shown in the table under food-grains, 19 per cent was in the United Provinces†, 14 per cent in the Madras Presidency, 13 per cent in Bihar and Orissa, 12

per cent each in Bengal and the Punjab, 11 per cent in Bombay, 9 per cent in the Central Provinces, and the remaining 10 per cent in the other provinces.

The area under oilseeds (13,914,000 acres) showed a decrease of 283,000 acres or 2 per cent as compared with the preceding year. The actual

	1922-23	1921-22	Increase (+) or Decrease (—)
	Acres (1,000)	Acres (1,000)	Acres (1,000)
Linseed	2,373	2,054	+ 319
Sesamum	3,156	3,707	—551
Rape and mustard	3,809	4,233	—424
Other oilseeds	4,576	4,203	+ 373

increase or decrease under each kind of oilseeds is stated in the margin. Of the total area under oilseeds shown in this table, 25 per cent was in the Madras Presidency, 15 per cent each in Bihar and Orissa and the Central Provinces

and Berar, 11 per cent in the Punjab, 9 per cent each in Burma and Bombay, 8 per cent in Bengal, 4 per cent in the United Provinces‡; and the remaining 4 per cent in the other minor provinces.

(a) The total of food crops and non-food crops does not agree with the gross cultivated area stated above for the reasons explained in footnote (b) on page 7.

* For a list of these crops, vide Appendix D.

† In the United Provinces, the whole of the area sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 4 million acres in the whole province in 1922-23. Excluding this area of 4 million acres under oilseeds, the total area under food-grains in British India in 1922-23 would come to 201 million acres instead of 205 million acres.

‡ The figures shown under the several heads of oilseeds in Table IV against the United Provinces represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other food crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1922-23 for the whole of the United Provinces to about 4 million acres. Including this area, the total area under oilseeds in British India in 1922-23 would come to nearly 18 million acres.

**Condiments and
spices**

The total area under condiments and spices in 1922-23 was 1,534,000 acres, as against 1,412,000 acres in the preceding year, or an increase of 122,000 acres or 9 per cent. Spices are grown mostly in the southern parts of India, the Madras Presidency alone accounting for about 40 per cent of the total area under condiments and spices in 1922-23.

Sugar

The total area occupied by sugar yielding plants in 1922-23 was 2,855,000 acres, as against 2,522,000 acres in the preceding year, or an increase of 333,000 acres or 13 per cent. Of this area, 2,688,000 acres were under sugarcane, as against 2,363,000 acres in the preceding year. Of the sugarcane area 50 per cent was in the United Provinces, 19 per cent in the Punjab, 11 per cent in Bihar and Orissa, 7 per cent in Bengal, and 5 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 167,000 acres as against 159,000 acres in the preceding year. Of this area the Madras Presidency accounted for 48 per cent and Bengal 37 per cent.

Fibres

Fibre crops occupied 15,692,000 acres in 1922-23, as against 13,854,000 acres in the preceding year, or an increase of 1,838,000 acres or 13 per cent. The actual increase or decrease under the several kinds of fibres is shown in the marginal table. The area under cotton showed an increase of 16 per cent. Of the total cotton area, 36 per cent was in the Central Provinces and Berar, 29 per cent in Bombay, 17 per cent in the Madras Presidency, 9 per cent in the Punjab, and 5 per cent in the United Provinces. The area under jute showed a decrease of 4 per cent. Of the total jute area 83 per cent was in Bengal and the remaining 17 per cent in the adjoining provinces of Bihar and Orissa and Assam. Other fibres also showed a decrease of 4 per cent as compared with the preceding year.

	1922-23 Acres (1,000)	1921-22 Acres (1,000)	Increase (+) or Decrease (-) Acres (1,000)
Cotton	13,588	11,665	+1,923
Jute	1,116	1,606	-690
Other fibres	668	663	-5

**Dyes and Tanning
materials**

The total area under dyes and tanning materials was 873,000 acres in 1922-23. Of this, the area under indigo was 277,000 acres, showing a decrease of 52,000 acres or 16 per cent. Of the total indigo area, 51 per cent was in the Madras Presidency, 18 per cent in the Punjab, 14 per cent in the United Provinces, and 13 per cent in Bihar and Orissa. Other dyes and tanning materials covered an aggregate area of 596,000 acres.

Drugs and narcotics

Drugs and narcotics occupied 2,228,000 acres in 1922-23, as against 2,247,000 acres in the preceding year, or a decrease of 19,000 acres. The actual increase or decrease under each kind of drugs and narcotics is stated in the marginal table.

	1922-23 Acres (1,000)	1921-22 Acres (1,000)	Increase (+) or decrease (-) Acres (1,000)
Opium	147	123	+24
Coffee	97	97	0
Tea	710	713	-3
Tobacco	1,073	1,051	+22
Other drugs and narcotics	211	263	-52

Fodder crops

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jowar, and carob or locust tree. The total area under fodder crops in 1922-23 was 8,712,000 acres, as against 8,608,000 acres in the preceding year.

**Fruits and vegetables
including root crops**

The total area under fruits and vegetable crops in 1922-23 was 5,520,000 acres, as against 5,538,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see page 27 and Appendix D.]

Miscellaneous crops

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,131,000 acres. Of this, about 1,167,000 acres were occupied by miscellaneous food-crops and about 964,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on page 27 and Appendix D.]

**Area sown more than
once**

The total extent of land on which more than one crop was cultivated during the year was 33,883,000 acres, as against 33,399,000 acres in the preceding year.

The statistics recorded in Table V are based on cattle censuses. The census is taken annually in certain provinces and quinquennially in others. * The first general quinquennial census was taken in 1919-20. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. The animals are divided into three classes, namely, (1) bovine, comprising oxen and buffaloes, (2) ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. The total number of live-stock of each of these three classes in each province,

Table V
Live-stock, ploughs
and carts

	Number in thousands				
	Bovine	Ovine	Others	Ploughs	Carts
Madras . . .	23,291	16,515	181	4,287	1,037
Bombay . . .	10,002	4,481	505	1,357	681
Bengal . . .	24,724	4,396	126	4,448	737
United Provinces . . .	29,764	6,100	704	4,872	841
Punjab . . .	15,237	8,738	1,298	2,324	314
Burma . . .	5,800	365	83	699	681
Bihar and Orissa . . .	19,853	4,140	108	3,051	494
Central Provinces and Berar . . .	11,314	1,361	158	1,415	909
Assam . . .	5,472	707	20	912	48
North-West Frontier Province . . .	1,132	834	200	213	10
Ajmer-Merwara and Manpur . . .	347	440	12	47	13
Coorg . . .	145	3	1	30	1
Delhi . . .	136	30	10	17	6
Total . . .	116,220	48,200	3,556	23,705	5,772

together with the numbers of ploughs and carts, is stated in the margin. Of the total number of live-stock of the bovine class (146 millions), which is cattle proper, the United Provinces accounted for 20 per cent, Bengal 17, Madras 15, Bihar and Orissa 14, the Punjab 10, the Central Provinces and Berar 8, Bombay 7, and the remaining provinces 9 per cent. In the case of stock of the ovine class (sheep and goats), however, Madras accounted for 34 per

cent of the total, followed by the Punjab (18 per cent), the United Provinces (13 per cent), Bombay, Bengal and Bihar and Orissa (9 per cent each). The table below shows the number of live-stock of the bovine class (cattle proper) per 100 acres of sown area and per 100 of the population of each province :—

	Number of cattle			Number of cattle	
	Per 100 acres of sown area	Per 100 of population		Per 100 acres of sown area.	Per 100 of population.
Madras . . .	68	51	Central Provinces and Berar	47	81
Bombay . . .	33	55	Assam . . .	91	73
Bengal . . .	105	51	North-West Frontier Province	48	50
United Provinces . . .	81	66	Ajmer-Merwara and Manpur	109	70
Punjab . . .	57	74	Coorg . . .	101	88
Burma . . .	36	44	Delhi . . .	60	28
Bihar and Orissa . . .	77	58			

It will be seen that the number of cattle per 100 acres of sown area ranges between 33 in Bombay and 109 in Ajmer-Merwara and Manpur, while the number per 100 of population varies from 28 in Delhi to 88 in Coorg. The average for British India, as a whole, is 65 per 100 acres of sown area and 60 per 100 of the population.

The varieties of land tenure in the different provinces are included in Table VI and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; and when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiayatwari*. Under either system there may be rent-paying sub-tenants. Zamindari tenure may be either *permanently settled*, i.e., where the land revenue has been fixed in perpetuity, or *temporarily settled*, i.e., where the land revenue is fixed for a limited number of years only. Village

Table VI
Land Revenue
Assessment

* In Burma, the Central Provinces and Berar, Ajmer-Merwara and Manpur Pargana the census is taken annually; in all other provinces it is taken quinquennially.

communities and raiyatwari tenures are, as a rule, temporarily settled, and the land revenue assessed on them is liable to change from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure, according to the latest statistics available, the figures roughly indicating the extent to which the different systems prevail :—

	Raiyatwari	Zamindari (individual proprietors or village communities) settled		Total
		Permanently	Temporarily	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Madras	61,462	29,586	...	91,048
Bombay	74,946	...	3,912	78,858
Bengal	37,865	11,311	49,176
United Provinces	7,132	60,391	67,523
Punjab	56,325	56,325
Burma	155,653	155,653
Bihar and Orissa	41,889	11,223	53,112
Central Provinces and Berar	23,756 ^y	...	40,437	64,193
Assam	27,388	3,931	1,849	33,168
North-West Frontier Province	8,381	8,384
Ajmer-Merwara	974	797	1,771
Manpur	31	31
Coorg	1,012	1,012
Delhi	368	368
Total	344,248	121,677	194, 97	660,922

It will thus be seen that about 52 per cent of the total area is held by *raiya* proprietors, while 18 per cent is held by permanently settled and 30 per cent by temporarily settled *zamindari* proprietors.

The statistics for this table are collected annually in Burma, Assam, Ajmer-Merwara, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Bombay, Madras and Coorg. According to the latest statistics available, the total revenue from land

	Total revenue from land (Rs. 1,000)	Total popula- tion (1,000)	Revenue per head Rs. a.
Madras	6,80,57	41,405	1 10
Bombay	4,38,38	18,116	2 7
Bengal	2,91,58	15,789	— 10
United Provinces	6,99,58	45,376	1 9
Punjab	5,32,15	20,656	2 9
Burma	5,53,98†	13,212	4 13†
Bihar and Orissa	1,56,60	34,002	— 7
Central Provinces and Berar	2,15,45	13,960	1 9
Assam	95,15	7,469	1 4
North-West Frontier Province	26,12	2,276	1 3
Ajmer-Merwara	3,46	495	— 11
Manpur	16	5	3 8
Coorg	3,90	164	2 6
Delhi	3,87	488	— 13
Total	37,00,95	243,412	1 8

(excluding cesses) for the whole of British India amounts to Rs. 37 crores. This represents the actual realisable demand † on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details, reference should be made to Table No. 14 on pages 34-41.

Table VII
Average prices

Table VII shows prices of staple crops at harvest-time. It will be seen from this table that the average prices of non-food crops such as cotton, jute, linseed,

* Including Government forests

† Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

‡ Excluding districts for which figures for revenue are not available.

rape and mustard, sesamum, groundnut and tobacco were higher than in the previous year, while those of food crops, such as winter rice, rice (unhusked), wheat, barley, cholam or jowar, cumbu or bajra, maize, gram and sugar (raw), were lower.

The Agricultural Department in each province maintains a statement of the average yield per acre of land of average quality, irrigated and unirrigated, of crops in each district. In order to test the accuracy of the standards of normal or average yield, and, if necessary, to revise them, a system of crop-cutting experiments exists in almost all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the Provincial Agricultural Department. The results of the experiments are reported to the head of the Provincial Agricultural Department, who revises the standards in the light of these returns, local enquiries and personal knowledge. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table in Appendix A shows the provincial averages as last revised with reference to the crop-cutting experiments made up to 1921-22. The district figures are shown in the Blue Book styled "Quinquennial Report on the Average Yield per acre of Crops in India for the period ending 1921-22."

Appendix A.
Average yield of
crops

Appendix B as stated above contains explanatory notes which are essential for a thorough understanding of the different tables in the different provinces. Appendices C and D require little or no comment. Appendix C explains the vernacular terms used in this volume, and Appendix D the classification in Table IV of the various crops cultivated in India.

Classification of crops
Charts

The map, charts, and diagrams exhibited in the volume illustrate—

- (1) the departure of sown area and that of rainfall in 1922-23 from the average of the preceding ten years ;
- (2) variations in rainfall as compared with the normal in relation to the total area sown, food-crops area, and current fallows (reversed) ;
- (3) the rainfall in wheat-growing tracts (June to February) as compared with the total and unirrigated wheat areas ;
- (4) total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow, and current fallows ;
- (5) total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops ;
- (6) area under rice, wheat, millets, oilseeds, cotton, jute, and other crops ;
- (7) total area sown and area under different crops ;
- (8) total live-stock divided between bovine, ovine, and others ;
- (9) shares of provinces in the total area under principal crops, and (10) harvest prices of certain principal crops.

D. N. GHOSH,
Director of Statistics
for *Director-General of Commercial Intelligence and Statistics.*

Calcutta, December 2, 1924.

2. Total area sown, area under food crops, current fallows (reversed) and the variations in rainfall, as compared with normal.

3. Total wheat area, unirrigated wheat area and rainfall in wheat-growing tracts (June to February).

NOTE.—(1) In the above charts figures of area represent million acres, while those for rainfall inches.
 (2) The scale of the curves in Chart No. 3 for "total wheat area" and "unirrigated wheat area" has in order to affect a better comparison, been made much larger than that used for the curve showing "rainfall."

4. Total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow and current fallows.

NOTE.— 1. "Total cultivable area" represents the sum of net area sown, culturable waste, and current fallows.
 2. "Uncultivable area" includes the area under forest.
 3. The sudden rise in the total cultivable and uncultivable area from 1921-22 is chiefly due to the addition of certain tracts in Burma from that year.

5. Total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops.

6. Area under rice, wheat, millets, oilseeds, cotton, jute, and other crops.

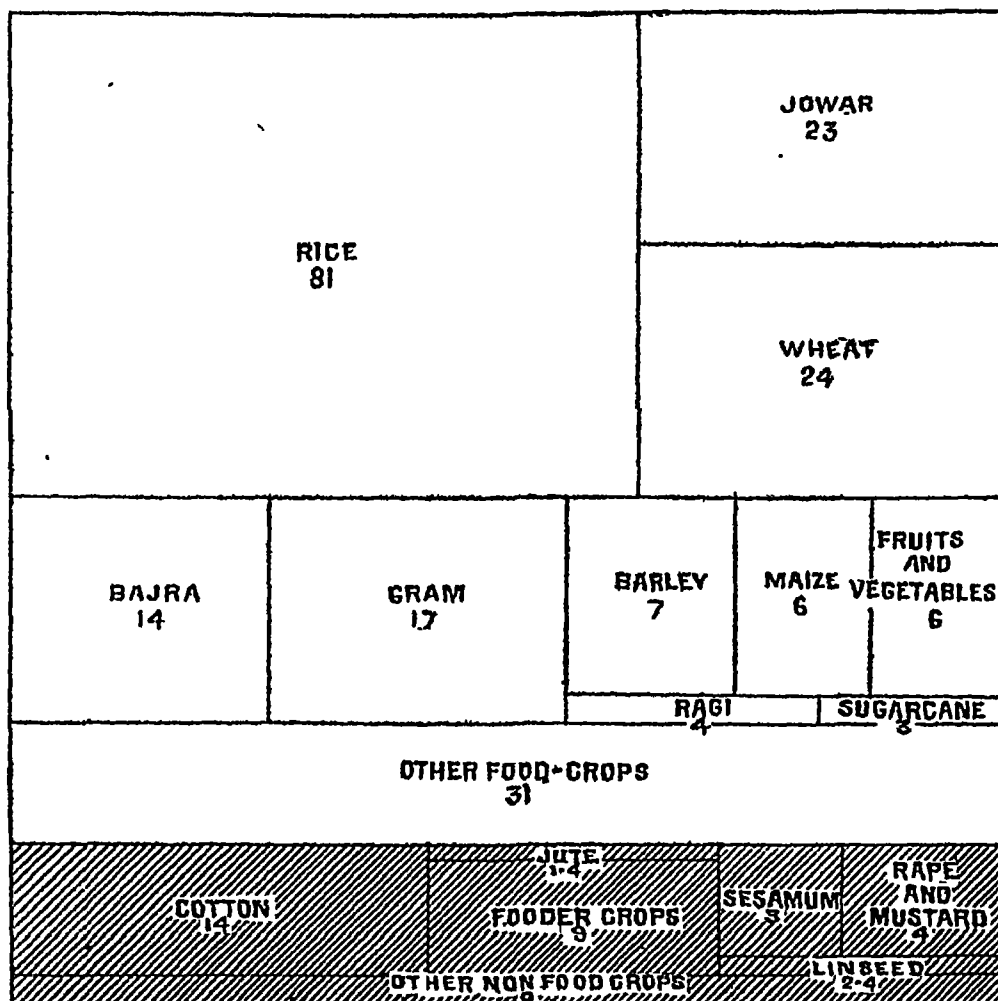

NOTE.—Millets represent fowar, bajra, and ragi.

7. Total area sown in 1922-23.

Total area sown	259 million acres
Area under food crops (unshaded)	216 „ „
Area under non-food crops (shaded)	43 „ „

(in Million acres.)

NOTE.—“Other food crops” are minor food-grains, condiments and spices and miscellaneous food crops.
“Other non-food crops” are oil-seeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

8. Total livestock divided between bovine, ovine, and others in 1922-23, as compared with the year 1913-14.

1913-14

1922-23

NOTE.—“Bovine” includes bulls and bullocks, buffaloes, calves and buffalo calves.
“Ovine” includes sheep and goats.
“Others” include horses and ponies, mules, donkeys, and camels.

9. Shares of provinces in the total area (in acres) under principal crops in 1922-23.

NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

10. Harvest Prices (Rs. per maund) of Certain Principal Crops in India.

* Related to rice-unhusked (Paddy)

* Miscellaneous revenue.

† Excludes R17,61,554 in Dinajpur and Darjeeling for which details are not available.

‡ Excluding districts for which figures for revenue are not available.

(a) Figures not available.

due by the Zamindars to Government, not those due by riyants to the Zamindars. The actual realisable demand on account of the year whether crops, etc., are excluded in the case of those provinces where all remissions are granted within the year to which the return relates, but it includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue, comprising fixed collections, ment estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of survey and settlement charge (Bengal); (5) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huccoba tax Madras Act, II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, Thathameda tax (Burma), receipts from ruby land, and rents of buildings situated on such lands.

Column 8.—As in column 5, but only ordinary land revenue on fully assessed areas is entered.

(a) Including the territory of Alsace Lorraine.

(b) Sefi crop only.

(c) Maize and Sorghum.

* Including figures for Indian States, namely, 3,595,000 acres for rice, 5,521,000 acres for wheat, 1,090,000 acres for barley, 2,206,000 acres for maize, 6,373,000 acres for cotton, and 487,000 acres for linseed. The figures for rice, barley, maize and linseed for Indian States are, however, not complete, as returns for those crops are not furnished by a number of States.

Notes.—The figures for foreign countries have been taken from the International Yearbook of Agricultural Statistics, 1923 published by the International Institute of Agriculture, Rome.

1922-23	155,652,667	(d)	155,652,667	155,652,667

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding Departments in the Southern Presidencies. The provincial areas in this column exclude Indian States in direct political relations with the Government of India, but include States politically controlled by Local Governments, with the exception of the Tribal areas in the North-West Frontier Province.

Column 3.—In this column is entered the area of Indian States included in column 2.

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Indian States) for which the statistics required for Tables II, III and IV were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 4. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest area. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

(a) Differences due to revised figures being reported by the Survey Department.

(b) Differences due to the partition of the Ruby Mines district in 1920-21, a portion of which was transferred to the Shan States, and the whole area was treated as Indian States in that year.

(c) Include for the first time Hkamti Long, L'utuo, Southern Shan States and Kaniuni.

(d) Areas which were shown in this column in previous years have been treated as British districts from 1922-23.

(e) Variation due to administrative changes whereby certain States which were formerly under local Government have been placed under direct political relationship with the Government of India.

(f) Figures subject to revision.

NOTE.—For detailed information, see notes in Appendix B.

Column 2.—“Forests” mean “any land classed or administered as forest under any legal enactment dealing with forests. Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons the chief amongst which are these: (1) because the Forest Administration Reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned as forests by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the sown area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

NOTE.—(1) The variations in the areas shown in different years under the same item in the same province do not necessarily represent an actual increase or decrease on the area in question. In many cases, a revised classification or the correction of a faulty estimate is responsible for the change.

(2) For detailed information, see notes in Appendix B.

(a) Figures subject to revision.

(b) Increase due to insufficiency of rainfall in several districts.

(c) See foot notes (c) and (d) on page 14.

See explanations given in the footnotes (page 16).

(a) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the Forest Administration Report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different.

(b) Includes unculturable Government waste and unculturable *bandes*.

(c) States the estimated area of culturable Government waste.

(d) Shows (1) the estimated area of culturable *bandes*, and (2) the difference between the net area sown and the gross area of the actual holdings (exclusive of *bandes*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained.

(e) Difference due to revision (see footnote (c) on page 16).

Columns 2 to 7 state the area actually irrigated during the year, areas sown more than once being counted once only.

(a) Included in column 14.

(b) Includes 39,008 acres for which details are not available.

NOTE.—For detailed information, see notes in Appendix B.

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7) is thus due to the inclusion in column 19 of the area irrigated at both harvests.

(a) Included in column 14.

(b) Included in column 16.

(c) Included in column 18.

(d) Includes 35,900 acres in Naini Tal, Almora and Garhwal for which details are not available.

NOTE—(i) This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each and the areas so estimated are separately returned. The estimate is made by the village accountant or is subsequently determined on formulae prescribed by the provincial authorities.

(ii) The variations in the areas shown in different years under the same crop in the same tract do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

(iii) For detailed information, see notes in Appendix B.

Column 10 (other food-grains including pulses).—Arhar (pigeon pea), baibati, lobia or chowli (asparagus), mung (green gram), kulth (horse gram), urad (black gram), field gram, choik (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki (little millet), kahndi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, watalu or batti.

IN EACH PROVINCE IN BRITISH INDIA.

Column 30 (other dyes and tanning materials).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.

Column 33—in certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on Indian Tea Statistics published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 37 (other drugs and narcotics).—Aloes, areca nut, sweet basil, betel-vine, country borage, bogoda binjal or nela, nulaka, datura, purple flower-bane, isagul, kolniji or vempali, senna, soap nut, sweet flag.

- (a) An annual census is taken on the 15th March in Manipur.
 (b) The figures in columns 9 to 18 exclude Bengal.
 (c) Statistics based on a census taken in 1913-14. Figures for columns 8, 17 and 18 were revised in 1914-15.
 (d) Included under "Young stock (calves)".
 (e) In Coorg a census is taken every five years. The last Census was taken in March 1920 by the circle shanbys and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in Municipal Towns are included.
 (f) Figures for Berar under this head are included under "Bullocks".
 (g) Includes uncastrated bullocks for Ajmer-Merwara.

	1922-23	49,175,516	4,978,496	1,188,023	43,008,996	(c)24,910,231	2,91,57,672

Note.—(1) The varieties of tenure are included as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

(2) For detailed information, see notes in Appendix B.

Column 3.—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (column 11). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops or for other special reasons.

Column 4.—This head is sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net sown area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

* No details

(a) Includes 3,407,181 acres in Dinajpur, Rangpur, and Pabna, for which details are not available.

(b) Returns were not available for certain areas in 1915-16. In 1920-21 they were available and hence the increase.

(c) Variation due to transfer from column 3(b) to column 3(a) of area for which returns were formerly not available, but for which information has since been supplied.

(d) Difference due to increase of fallow lands in consequence of unfavourable rain.

(e) Includes 5,672,004 acres in Burdwan, Bankura, Murshidabad, Dinajpur, Rangpur, and Pabna, for which details are not available.

(f) Decrease due to non-receipt of Survey and Settlement cost of major operations.

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, and not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including naramana), over collections (Bombay), surplus collections, collections from Government estates, kyan tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) motapha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement or Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huacoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1861, opitation tax (Burma), petroleum well revenue, jale and amber revenue, thatanaoda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeal from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands.

Column 6.—The population is that of the last general census.

Entry 8.—As in entry 5, but only ordinary land revenue on fully assessed areas is entered.

Entry 9.—To be entry 8, divided by entry 4 (a).

Entry 10.—To be entry 8, divided by entry 4 (b).

* No details.

† Includes Rs. 15,18,950 for Dinaipur for which details are not available.

‡ Includes Rs. 17,61,554 for Dinaipur and Darjeeling for which details are not available.

(a) Excluding Sind from which no information is available.

APPENDICES

APPENDIX A

The Average Yield per Acre of Principal Crops in India.

A provisional return of the yield per acre of principal crops cultivated in India was first compiled in 1892 from various statistical publications available at the time, such as agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc. To provide for the periodical revision of the estimates, a system of experimental crop cuttings was prescribed in 1893 by the Government of India, the results of which are reported by Local Governments and Administrations at the close of each quinquennium. The returns for the last quinquennium ending 1921-22 have been received and scrutinised, and tabulated in the appended tables.* These outturns per acre are of extreme importance since these will generally be used during the present quinquennium (ending 1926-27) in estimating the production of crops for which forecasts are prepared.

2. The estimate given is the average outturn on average soil in a year of average character, as deduced from the information obtained from experiments made up to the period under review. When, therefore, this average is multiplied by the average area sown, it should give as near an approximation as possible to the outturn of the crop in an average year. The Departments of Agriculture or Land Records of each province maintain standard estimates of the average yield of land of average quality (usually under the two major heads of irrigated and unirrigated land) for several crops in each district. The object of the experiments or investigations annually made is to test the accuracy of these estimates and to enable the head of the Department in each province to revise his provincial estimates, when necessary. Should it happen that the period has been one of exceptionally favourable or unfavourable conditions which have affected the experiments reported, this would not necessarily involve a change in the standard estimates for the district or for the province, unless there were other reasons for believing that, as estimates of average yield in an average year, they have been pitched too high or too low.

3. On an examination of the returns for the quinquennium ending 1911-12, it was recognised that the results of the experiments as conducted by the district revenue staff were generally unreliable. A change in the system was therefore considered necessary; and in 1915 the Government of India, with a view to improve the returns, issued instructions to employ as far as possible the expert officers of the provincial Agricultural Department for carrying out experiments on a well-ordered plan in each agricultural tract and for the investigation of average crop outturns in the various provinces. The new system was introduced in the quinquennium ending 1916-17 in some of the provinces mainly as an experimental measure, as explained in the previous report. It appears from the present reports that during the quinquennium under review the new system was not fully carried into effect in most of the provinces. In Bengal, for instance, only cuttings of jute were made by trained officers of the Agricultural Department under expert supervision. In Madras the experiments conducted by the Agricultural Department are too few to admit of the results being accepted as representative. In Bombay the new system of experiments conducted by officers of the Agricultural Department continued, but in certain districts, where the kind and value of the land varies widely from field to field, the old method had to be adopted. In Bihar and Orissa crop tests were carried out by the Agricultural Department on a small scale in thirteen districts. In the Central Provinces and Berar the experiments made are stated to be still of doubtful value. In the Punjab officers of the Agricultural Department were only consulted in revising the standards. In Burma, according to the revised instructions, the work was entrusted to the Agricultural Department from the beginning of the quinquennium under review; but as a result of the recommendations of a conference held in 1920 (which were accepted by the Local Government) the work was transferred to the Settlement Officers, on the ground that the cuttings made by them supply sufficiently reliable data for ascertaining the actual average outturns of crops. In the North-West Frontier Province, the work was entrusted to the Agricultural Department

* For district figures, reference should be made to the separate Blue Book styled "Quinquennial report on the Average Yield per acre of principal crops in India for the period ending 1921-22."

	1916-17	1,165
	1921-22	1,322

NOTE.—(1) For district figures, reference should be made to the separate Blue Book styled "Quinquennial Report on the Average Yield per acre of principal crops in India for the period ending 1921-22."

(2) Average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped; and the yield of unirrigated land multiplied by the unirrigated area cropped, and dividing the sum of these products by the total area cropped.

(3) The superseded figures of the previous quinquennial have been inserted merely to show the trend of the revision made in each period.

*The variations in the figures of yield of crops now reported as compared with previous ones are due to the fact that the averages have been worked out not approximately as before, but accurately.

†The average for Burma for 1916-17 are based on the normal outturns per acre given in the Season and Crop Report of Burma for 1916-17.

(a) As constituted before 1907. (b) Spring. (c) Bengal. (d) Bihar. (e) Autumn. (f) Chota Nagpur. (g) Relates to Eastern Bengal and Assam. (h) Berar.

(i) Winter. (j) Includes Delhi.

(b) The figures of yield of sugarcane crop have not been shown in the present return as no figures had been reported by district officers owing to the fact that it is not a staple crop in Sind.

APPENDIX B.

EXPLANATORY NOTES.

Table I.—Area.

Madras
(Page 14)

Column 2 states the area as ascertained by the provincial Survey Department, supplemented, for tracts which have not come under the operations of that Department, by areas obtained with the computing scale from the Survey of India Atlas sheets of the localities concerned.

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates, owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,805,947 acres) entered in column 6 for 1922-23 (page 14), 67,239,923 acres are based on actual returns and 22,566,024 acres on estimates.

The total area in column 5 includes the unaccounted-for difference in the Ramnad district between the Atlas sheet scale and traverse area on the one hand, and the estimated areas in the village accounts of unsurveyed areas on the other. The difference in 1921-22 and 1922-23 was about 952,000 acres. The matter is under correspondence with the Collector.

Bombay
(Page 14)

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the return of the Topographical Survey. In Sind, the revenue survey being incomplete the exact area is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the Revenue Survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (78,862,125 acres) entered in columns 5 and 6 for 1922-23 (page 14), 74,582,714 acres are based on actual returns and 4,279,411 acres on estimates.

Bengal
(Page 14)

The area cadastrally surveyed up to 1922-23 comprises 30,774,971 acres or about 64.29 per cent of the total area of the province (exclusive of Indian States and the Chittagong Hill Tracts). The figures for the remaining area of the province are based more or less on estimates.

United Provinces
(Page 14)

Columns 5 and 6.—For tracts which possess no agency for collecting statistics, the figures are based on estimates. Of the total area (68,101,451 acres) entered in column 6 for 1922-23 for the provinces, 60,710,451 acres are based on actual returns and 7,391,000 acres on estimates.

Punjab
(Page 14)

Column 6.—Figures for area in river beds in Gujraon not accounted for in the revenue papers and for high mountainous tracts in Simla and Kangra are based more or less on estimates. (See also notes to column 3 in Table II, page 56.)

Burma
(Page 14)

Columns 2, 5 and 6.—In districts where there has been no professional survey, estimates framed in the best manner possible are accepted subject to revision from time to time as survey extends.

Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myit-kyina and Katha districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08. Feudatory States in Upper Chindwin and Yamethin and the Northern Shan States, which were formerly included in columns 2 and 3 and excluded from columns 5 and 6, are shown, from 1921-22, in columns 2, 5 and 6 and excluded from column 3. Putao, the Southern Shan States and Karenni have been included from 1921-22

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table I.—Area—continued.

Of the total area (155,052,007 acres) for the whole province, 32,105,195 acres are based on actual survey and the balance (123,547,472 acres) on estimates. Burma—contd.
(Page 14)

The area cadastrally surveyed is 50,290,528 acres, which is 94.7 per cent of the total area of the province (exclusive of Indian States). The figures for the remaining area of the province are based more or less on estimates. Bihar and Orissa
(Page 14)

Columns 2, 5 and 6.—For the unsurveyed areas of zamindari estates and waste land grants for which accurate statistics are not available, the figures are based on estimates. In the Central Provinces the zamindars are chiefs of minor importance (or their successors) who, while holding large and compact estates on privileged tenure, have been restricted to the rank of ordinary subjects. For Berar *column 2* states the area as ascertained by the local Survey and Settlement Department. Central Provinces
and Berar.
(Page 15)

Columns 2, 5 and 6.—The figures for the unsurveyed areas in Cachar and Sylhet, the permanently settled and *lakhiraj* estates in Goalpara, the hill tracts of the Garo Hills district, the Naga Hills, the Lushai Hills, and the Khasi and Jaintia Hills are based on estimates. Assam
(Page 15)

Column 2 states the area as given in the settlement records. The area for the Manpur Pargana excludes *jagir* and *inam* villages. Ajmer-Merwara
and Manpur
(Page 15)

Table II.—Classification of Area.

Column 2 includes the area cultivated within forests. The area cultivated with coffee, tea and rubber within forests is, however, excluded from this column and is shown under *column 6*, since the year 1918-19. Madras
(Page 16)

Column 4 includes areas occupied by *babul* and *casuarina* trees when they do not form parts of forest areas.

Column 5 includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

Column 6.—Of the total net sown area for 1922-23 (32,997,115 acres) stated in this column, 27,450,815 acres are based on actual returns and 5,546,300 acres on estimates.

Figures for unsurveyed villages are based on estimates.

Column 2, so far as Bombay proper is concerned, includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions. The figures in Sind also do not agree with those in the Forest Administration Report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do. Bombay
(Page 16)

Column 3 includes all land recorded at the Survey and Settlement as unculturable, although at times a very small quantity of this land is cultivated.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table II.—Classification of Area—continued.

Bombay—*contd*
(Page 16)

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net sown area (26,754,141 acres) in Bombay proper entered in this column for 1922-23, 25,457,812 acres are based on actual returns and 1,296,329 acres on estimates.

Bengal
(Page 16)

Column 2.—The figures represent Government forests and estimates of other forest areas furnished by district officers.

United Provinces
(Page 16)

Column 2 includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the Forest Administration Report which excludes these areas. This column also includes the Siwalik Range in the Dehra Dun district.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Column 6.—Of the total net sown area (35,614,977 acres) entered in this column for 1922-23 for the provinces, 35,010,977 acres are based on actual returns and 604,000 acres on estimates.

Punjab
(Page 16)

Column 2 includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually.

Burma
(Page 16)

For tracts outside the surveyed area the figures are based on estimates.

Column 2.—The area classed as forests comprises only those areas which are administered by the Forest Department as reserved forests or fuel reserves.

Column 3.—Land not available for cultivation includes all land absolutely barren and all lands covered by buildings, roads, water or otherwise appropriated to uses other than agriculture. In settled tracts the unculturable area is taken from settlement registers, but in the unsettled tracts it is obtained from the best source available.

Column 4 includes land thrown out of cultivation and abandoned and any land under palms and bamboos and thatching grass which is not shown in columns 2, 3, 5 or 6.

Column 5 includes all land occupied for agricultural purposes which is left uncultivated. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated.

Column 6.—Of the total net area sown (16,814,635 acres) entered in this column for 1922-23 for the whole province 14,567,340 acres are based on actual returns and 1,747,295 acres on estimates.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table II.—Classification of Area—continued.

Column 2.—The figures represent Government forests and estimates of other forest areas furnished by district officers. Bihar and Orissa
(Page 17)

Column 2 shows the areas administered by the Forest Department; but the figures differ from those in the Forest Administration Report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thikadai villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Durg, Raipur and Bilaspur districts, this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation. In Berar, the forest area includes those administered by the Forest Department, but excludes a large area of cultivated land in the Melghat taluk in Amraoti shown as forest in the forest report. Central Provinces
and Berar
(Page 17)

Column 3 states areas covered with water, hill or rock, and land occupied by buildings and roads. For Berar, it includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of culturable fields.

Column 4 states (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings. For Berar, it includes land available for cultivation but not given out.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow. For Berar, it includes occupied culturable land left fallow for private reasons such as grazing, rotation, etc.

Column 2.—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table. Assam
(Page 17)

Columns 3 and 4.—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good.

Column 5 includes generally all lands which are thrown out of cultivation or not cultivated for three years, but which remain in the occupation of leaseholders. Figures for the hill districts, except the plains portion of the Garo Hills and Sadiya Frontier Tract, are rough estimates.

Column 6.—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill districts and the Sadiya Frontier Tract are based on estimates. The figure for the Balipara Frontier tract represents the area under tea only.

Column 2 includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar. North-West Frontier
Province
(Page 17)

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Deira Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

APPENDIX B--continued.

EXPLANATORY NOTES--continued.

Table II.—Classification of Area—concluded.

Ajmer-Merwara and
Maunder Pargana
(Page 17)

Column 2.—The forest area in Ajmer-Merwara relates to khalsa, jagir and minor istamar villages, but excludes village lands managed by the Forest Department, which do not technically constitute Government forests.

Table III.—Area irrigated and Crops irrigated.

Madras
(Pages 18-19)

Column 4.—The term "tanks" refers to a particular kind of dammed reservoirs. These reservoirs are formed by enclosing depressions or throwing dams across the valleys of small rivulets and streams to intercept water during the rains.

Column 7.—Of the total area 9,509,239 acres irrigated in 1922-23, 7,838,995 acres are based on actual returns and 1,670,244 acres on estimates.

Punjab
(Pages 18-19)

Columns 2 to 19.—Areas irrigated from all sources are only estimates, except in the case of areas irrigated from Government canals.

United Provinces
(Pages 18-19)

Columns 2 to 6.—Government canals include private canals except in Dehra Dun, Naini Tal, Budaun, and Basti for which districts separate figures for private canals are obtained. There are very few private canals in the United Provinces.

Other food crops include condiments and spices, fruits and vegetables and miscellaneous food crops.

Column 7.—Of the total area for the provinces (9,883,814 acres) irrigated in 1922-23, 9,847,914 acres are based on actual returns and 35,900 acres on estimates.

Punjab
(Pages 18-19)

Columns 5 to 19 state the gross area irrigated, that is, land irrigated in both seasons is counted twice.

Uttar Pradesh
(Pages 18-19)

Columns 8 to 19 include only crops actually irrigated; for instance, where an unirrigated crop of sesamum is taken off land which is afterwards irrigated and planted with paddy, the area grown with sesamum is not included in this column.

Bihar and Orissa
(Pages 18-19)

Columns 2 to 19.—The figures are only estimates, except in the case of areas irrigated from Government canals.

Assam
(Pages 20-21)

Columns 2 to 19.—Estimates of areas irrigated are available for Kamrup, Darrang, Sibsagar, the Khasi and Jaintia Hills, the Garo Hills, the Lushai Hills and the Sadiya Frontier Tract. In the case of the last four districts, however, the estimates are somewhat incomplete.

North-West Frontier
Province
(Pages 20-21)

Columns 8 to 19 state the gross area irrigated, that is, land irrigated in both seasons is counted twice, but areas irrigated more than once in a single harvest are included only once in columns 2-7.

Table IV.—Area under Crops.

Madras
(Pages 22-23, 26-27)

Column 39 (fodder crops) states the areas sown with grass and crops solely for fodder. Lands left waste for grazing and on which grass grows spontaneously are not included in this column. It shows crops that in normal times are used only as fodder.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table IV.—Area under Crops—continued.

Figures for unsurveyed villages are based on estimates.

Bombay
(Pages 22-23, 26-27)

Statistics are not prepared by village or circle officers. The figures entered in this table are estimates. Statistics for jute only are collected through the agency of *panchayats* (village unions). Bengal
(Pages 22-23, 26-27)

The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crop by the village accountants. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jowar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulae and entered under the crops of which they are composed. United Provinces
(Pages 22-23, 26-27).

Columns 3, 4, 5, 6, 9 and 10.—The whole of the area of the land planted with food grains wheat, barley, etc., mixed with oilseeds, is shown under food-grains in this table. The area sown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 4,079,000 acres in the whole of the United Provinces of Agra and Oudh in 1922-23.

Columns 12, 13 and 14.—The figures shown in these columns represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1922-23 for the whole of the United Provinces of Agra and Oudh to 737,000 acres of linseed, 575,000 acres of sesamum, and 2,467,000 acres of rapeseed.

There is no agency for the collection of statistics in Almora, Garhwal, and the hill tracts of Naini Tal. Estimates have, however, been made for Garhwal and included in the table.

For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible. Borneo
(Pages 22-23, 26-27)

No statistics are at present prepared by village or circle officers, except in the Sambalpur district. The figures for all other districts entered in this table are estimates. The estimates for Patna, Gaya, Shahabad, Saran, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Puri, Cuttack (exclusive of small permanently-settled areas), Balasore, Angul, the Santhal Parganas, Hazaribagh, Ranchi, Palaman and Singhbhum are, however, based on the figures collected during the cadastral survey. Bihar and Orissa
(Pages 22-23, 26-27)

The information is received from district officers who in their turn obtain figures from the district Land Records staffs in the case of the temporarily-settled areas and from Zamindars in the case of the permanently-settled portion of Goalpara, with the exception in the latter district of jute, the estimate for which is compiled by the village Chaukidari Panchayats. In the permanently-settled part of Sylhet the figures for jute are those submitted after actual inspection by the village Chaukidari Panchayats. The figures for tea are reported by the garden managers, while for all other crops estimates have been framed by the district officers from the actual areas in the surveyed parts, applied to the rest of the districts. The figures for the hill districts and the Sadiya Frontier Tract are rough estimates which are revised quinquennially except for cotton for the hill districts and sugarcane and rape and mustard for the Sadiya Frontier Tract for which estimates have to be made annually for the forecasts of these crops. Assam
(Pages 24-25, 28-29)

Column 40.—The area under fruits and vegetables includes village sites.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table V.—Live-stock.

Madras
(Pages 30-31)

The last quinquennial census was taken in October, 1919, in all villages, Government Inam, and Zamindari, and stock in cities, cantonments, and that employed in Government Departments and Municipalities were included. Oxen, buffaloes, horses and ponies not old enough for work or breeding were treated as young stock.

Bombay
(Pages 30-31)

The figures are collected once in five years. The last quinquennial census was taken in 1919-20.

Bengal
(Pages 30-31)

Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts in columns 2 to 4 have, however, subsequently been revised. The census did not take into account the animals named in columns 9 to 16, nor ploughs and carts (columns 17 and 18). Figures for 1919-20 under all the heads are based on a cattle census taken in 1920.

United Provinces
(Pages 30-31)

The table is prepared quinquennially on a census in each district taken every five years. The census which was due in 1913-14 but could not be taken in that year, owing to famine in some of the districts, was taken in 1914-15 in all the districts except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the census was taken in 1912. The last census was taken in 1920, except in Almora, Garhwal, and the hill tracts of Naini Tal.

Punjab
(Pages 30-31)

A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1923. All cattle in cantonments and Municipalities as also those belonging to Government are included.

Burma
(Pages 30-31)

Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *taikthuggis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

Bihar and Orissa
(Pages 30-31)

The figures for 1913-14 shown in the table for all the districts of the province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Palamau, Hazaribagh, and Ranchi the figures were based on information collected during survey operations, while the figures for Manbhum were based on police reports. Corrections were made in the figures for Hazaribagh in 1915-16 and for Palamau in 1917-18. The figures for 1919-20 were for the most part ascertained by a census held in January 1920. In Manbhum the available settlement figures were supplemented by a census. In Hazaribagh and Ranchi, the previous settlement figures were brought up to date by a census in one per cent of the villages. In Palamau the settlement figures were accepted. The 1919-20 figures were finally corrected in 1922 when a review of the census was published.

Central Provinces
and Berar
(Pages 32-33)

The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included. In Berar, a census is made annually by the village officers. All cattle belonging to one owner are entered against his name even though the animals are

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table V.—Live-stock—continued.

temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

The statistics for 1919-20 are based on a cattle census held in 1920 except in the plains portion of Garo Hills for which the figures are those obtained at a census taken in 1913. No information is available for Garo Hills (hill portions), Naga Hills, Khasi and Jaintia Hills, Lushai Hills, and the Balipara Frontier tract. Assam
(Pages 32-33)

A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1920. All cattle belonging to Government are included. North-West Frontier
Province
(Pages 32-33)

Table VI.—Land Revenue.

The table is prepared quinquennially. The figures were last collected in 1918-19.

Madras
(Pages 34-35)

Column 3 (a).—In the case of raiyatwari tracts this column states the areas of unoccupied assessed lands, of all unassessed porambokes, of minor inam lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous"; and in the case of zamindari tracts the areas of hills, porambokes, and minor inams are entered. The entire area of whole inam villages is deducted from this column.

Column 3 (b).—Raiyatwari includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers.

Column 4 (a).—The figures for the raiyatwari tenures in this column represent the total occupied area stated in village papers which differ in some cases from the resultant of preceding columns.

Column 4 (b).—For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 8 shows only the "ordinary revenue", as defined in the Civil Accounts, on area fully assessed.

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (a).

Column 11 states the entire population of raiyatwari and zamindari villages, respectively.

This return is prepared quinquennially.

Bombay
(Pages 34-35)

Column 1.—Lands held under special tenures, such as talukari, mohwasi, udhad-jama bandi, narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)".

Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area. For Sind, it includes fallow and fully assessed unoccupied area.

Column 3 (b) includes alienated cultivated and zamindari cultivated (estimated) land.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table VI.—Land Revenue—continued.

Bombay—contd.
(Pages 34-35)

Column 4 includes land under temporary cultivation, also pot inams paying full assessment. For Sind it excludes fallows and fully assessed unoccupied area [see note to column 3].

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years about 2·5 per cent of the total revenue entered in this column for Bombay Presidency was remitted on account of assessed unoccupied lands, short crops, etc.; in Sind 0·3 per cent of the total revenue entered in this column was remitted on account of assessed unoccupied lands, short crops, etc.

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area. In Sind the incidence is calculated from the cultivated area (excluding fallows) and the assessment on that area.

Column 11 includes population of pot inams and the like scattered areas for the Bombay Presidency, which cannot be distinguished from the population of the fully assessed area.

Bengal
(Pages 34-35)

The table is prepared quinquennially, and the figures were last collected in 1922-23.

Column 1.—The following classification of estates has been adopted :—

- (1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.
- (2) *Zamindari (temporarily settled)*, comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor.

Column 4 (b) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

United Provinces
(Pages 36-37)

The table is prepared quinquennially, and the figures were last collected in 1921-22.

Columns 3 (a) and 3 (b) exclude small revenue-free plots, for which details are not forthcoming.

Column 5 states (1) "ordinary revenue," comprising (a) fixed collections (including land revenue on account of resumed *Gorait Jagirs*), (b) fluctuating collection, (c) surplus collections, (d) collections from Government estates (including collections from Dudhi, Tarni, and Bhabar estates, and receipts from forest estates); (2) sale of Government estates; (3) sale-proceeds of waste lands and redemption of land tax; (4) miscellaneous, comprising (a) receipt from quarries and mineral products in forest and land not under the management of the Forest Department, (b) water mills rent, (c) malikanas or allowance to excluded proprietors, (d) fines and forfeitures of revenue courts, (e) recoveries in India of law charges in England on account of appeals from India, (f) miscellaneous receipts, namely (i) patwari miscellaneous receipts (revenue record room), (ii) mutation fees, (iii) mutation fines, (iv) sale of waste paper, and (v) partition fees, (g) rents of railway class "C" land and rents of buildings situated on such land. On the average of the last five years about 2·13 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 6.—The total population of the province includes the population of the Benares State.

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12.

Columns 13 and 14.—The figures are taken from the Census Reports of 1921.

APPENDIX B—continued.

EXPLANATORY NOTES—continued

Table VI.—Land Revenue—continued.

Column 2 states the total area by last settlement survey.

Columns 3 (a) and 3 (b) include villages receiving frontier remissions, tracts which are ^{Punjab} entirely unassessed (such as the Kulu Mountains) and istamrari tenures. (Pages 36-37)

Column 5 shows all the items falling under the head "Land Revenue" in the Civil Accounts, including assigned revenue.

Column 10.—The cultivated area taken for calculating the incidence is exclusive of current fallows.

Column 2 includes tracts outside the surveyed area for which the figures are mostly ^{Burma} based on estimates. (Pages 36-37)

Column 3 (a).—No deduction is made for areas held revenue-free or at privileged rates as they are ordinarily less than an entire village and as it is difficult to estimate the corresponding deductions to be made in the population (column 11).

Column 3 (b) includes the whole area except that occupied for cultivation.

Column 4 (a) includes the area occupied for cultivation including land wholly or partly exempted or remitted from assessment on account of fallow or short crops.

Column 4 (b) represents the area actually sown whether assessed or exempted or remitted from assessment.

Column 5 comprises ordinary land revenue (including water rate), capitation tax, *thathameda* tax, fishery revenue and miscellaneous revenue (petroleum, rubies, other minerals, etc.). Sums remitted on account of uncultivated land or short crops, etc., are excluded.

Column 6 represents the population at the last census with no allowance for subsequent increase.

Column 8 represents the ordinary land revenue (including water rate) actually collected or due for collection within the year excluding remissions and exemptions.

The table is prepared quinquennially.

Column 1.—The following classification of estates has been adopted:—

^{Bihar and Orissa}
(Pages 36-37).

(1) *Zamindari* (*permanently settled*) including estates managed for proprietors by Government;

(2) *Zamindari* (*temporarily settled*) comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods and (b) all estates owned by Government as proprietor.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts. On the average of the last five years about 0.3 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 1.—*Zamindari* (*temporarily settled*) includes *malguzari* and *thekadari*.

<sup>Central Provinces
and Berar</sup>
(Pages 36-37, 38-39)

Column 2 states the area by village papers (column 6 of table I, No. 0).

Column 3 (a).—*Zamindari* estates properly so-called (that is, excluding *malguzari*) are classed as not fully assessed in the Central Provinces. In Barar, this column states *jagir*, *izara*, and *palampat* villages, all unassessed lands, forest areas, village sites, roads, rivers, etc.

APPENDIX B—concluded.

EXPLANATORY NOTES—concluded.

Table VI.—Land Revenue—concluded.

Central Provinces
and Berar—contd.
(Pages 36—37,
38—39)

Column 4 (a).—In Berar *Pot Akharab* lands are excluded from this column, which includes only, occupied lands available for cultivation.

Column 4 (b) excludes fallows in the Central Provinces. In Berar, it states the cultivated area in khalsa villages only.

Column 5.—The figures for the Central Provinces represent different items of land revenue for different districts, no uniform practice having been followed throughout the province. In Berar, the figures include the revenue derived from jagir, palampat, and izara villages. As regards the items of land revenue included, the practice has not been uniform, different districts having entered different items.

Column 8 for Berar shows assessment on occupied lands only, as stated in column 4(a).

Column 10.—The cultivated area included for the Central Provinces in this column is the fully assessed portion of the net sown area. In Berar, the incidence is calculated on the area entered in column 4 (b), that is, the cultivated area in khalsa villages only.

Column 11 excludes population of jagir and izara villages of Berar.

Assam
(Pages 38-39)

Column 1.—*Raiyatwari* includes, besides *raiayatwari* tenures, all unsettled Government waste and forest lands and areas in which house-tax or poll-tax is levied; it also includes certain temporarily settled estates in Sylhet which were formerly (before 1902-03) included under Zamindari (temporarily settled). *Zamindari (temporarily settled)* includes, besides temporarily settled Zamindari estates, fee-simple grants, wholly or partially revenue-free tenures, and grants under progressive assessment.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts. On the average of the last five years about 1·414 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 10.—The incidence has been calculated on the cultivated portion of the fully assessed area.

Column 11.—The figures of population of fully assessed areas are estimates based upon village census registers.

North-West Frontier
Province
(Pages 38-39)

Columns 3 (a) and 3 (b) include villages receiving frontier remissions and istamrari tenures.

Column 4 (b) includes fully assessed current fallows which bore any crop in the preceding year.

Column 5 shows all the items falling under the head "Land Revenue" in the Civil Accounts, including assigned revenue.

Column 10.—The incidence is calculated on the cultivated area excluding current fallows.

Ajmer-Merwara
(Pages 40-41)

The table is prepared annually.

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrari areas as "Zamindari (permanently settled)."

Column 4 includes in the case of the khalsa villages the assessed cultivated area including assessed fallows.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10.—The cultivated area is in the case of "Zamindari (temporarily settled)," the crop portion of the fully assessed area.

Column 11 excludes population of jagir villages.

APPENDIX C.

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA.

- Agasi, agati, or avati* (*Sesbania grandiflora*)—A vegetable crop.
- Ajnuud* (*Carum Roxburghianum*)—A kind of spice.
- Ajwan* (*Carum copticum*)—A kind of spice, "Bishop's weed."
- Akurkura or jevandi* (*Chrysanthemum coronarium*)—A non-food crop.
- Amala or mamidi allam* (*Curcuma amala*)—A condiment.
- Ampacham* (*spondius magnifera*)—The hog plum.
- Arhar* (*Cajanus indicus*)—The pigeon pea.
- Arunelli* (*Phyllanthus distichus*)—Country star gooseberry.
- Bajra* (*Pennisetum typhoides*)—The spiked millet.
- Band* (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.
- Barbati* (*Figna catjang*)—Asparagus, a food grain.
- Barti* (see Wudalu).
- Bel* (*Agile Marmelos*)—A fruit.
- Bhagdari* (see Narvadari).
- Bilimbi* (*Averrhoa Bilimbi*)—A fruit.
- Bimb* (*Cephalandra indica*)—A fruit.
- Chaplash* (*Artocarpus Chaplasha*)—A tree grown mainly for timber.
- Chayroot* (*Oldenlandia umbellata*)—A dye.
- Cheena* (*Panicum miliaceum*)—The common millet.
- Cheik* (*Coix lachryma-jobi*)—A food grain, "Job's Tear."
- Chikkudukayalu* (*Dolichos lablab*)—The Indian or popat bean.
- Cholam* (see Jowar).
- Cholanathu* (*Andropogon sorghum*)—Fodder jowar.
- Chowli* (see Barbati).
- Cumbu* (see Bajra).
- Dani* (*Nipa fruticans*)—A scabiferous palm, the leaves of which are used for thatching purposes, also for matting.
- Dhaincha* (*Sesbania aculeata*)—A plant cultivated mainly for green manure.
- Dhutura* (*Datura alba*)—A drug.
- Dividivi* (*Casalpinia coriara*)—A tanning material.
- Gajar*—Carrot.
- Garmal* (*Coleus barbatus*)—A fruit.
- Gonali* (see Kutki).
- Gorait* (United Provinces)—Village watchman.
- Henna* (*Lawsonea alba*)—A dye.
- Indam* (Madras)—Alienated villages or lands granted rent-free. *Whole indam* villages are entire villages held on such tenure; *minor indams* are portions of villages, generally a number of fields, held on *indam* tenure.
- (Coorg)—A grant of land by Government as a reward for services rendered or for religious or charitable purposes.
- Isfagul* (*Plantago ovata*)—A drug.
- Istamdari* (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned is charged with a permanently fixed quit-rent.
- Izifat* (Bombay)—A form of service tenure.
- Izara* (Berar)—Land leased under the waste-land rules on stipulated terms.
- Jagir* (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.
- (Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.
- (Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.
- Jambo or naval*—Black plum.
- Jamma* (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX C—continued.

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued.

Jenugulu—Asparagus.

Jinjili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, minus the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Jowar (*Sorghum vulgare*)—The great millet.

Kalpaganu—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet.

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Koenigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kanathu (*Dioscorea alata*)—A tuber used as a food stuff.

Khdlsa (Bombay)—Government occupancy or raiyatwari tenure.

—(Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

—(Berar, Ajmer-Merwara)—Land paying full revenue to Government.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khuaj (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Kolinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Korai—The Indian matting sedge.

Kukudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (see *Kodo*).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (see *Barbati*).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari, (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Marua (*Elusine coracana*)—A kind of millet.

Marukkolundu, (*Artemisia vulgaris*)—The Indian worm wood.

Mekwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX C—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued

- Munsarim* (Berar)—A head native revenue officer.
- Narvadari, Bhagdari* (Bombay)—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump and in the latter distributed by rates over fields.
- Neem or Margosa* (*Melia azadirachta*)—A non-food crop.
- Ncerali* (*Gynocordia odorata*)—An oilseed.
- Nela mulaka* (*Solanum xanthocarpum*)—The bogoda brinjal, a drug.
- Nisfkhiraj* (Assam)—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.
- Odamula* (*Ochlandra Rheedii*)—A reed.
- Ol or zaminkand*—The elephant foot, a root crop.
- Palampat* (Berar)—Land held on payment of a quit-rent, but not necessarily hereditary.
- Panchayat* (Bengal)—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.
- Papay* (*Carica papaya*)—A fruit.
- Parpatfigar* (Coorg)—A revenue officer in charge of a sub-division of a taluk.
- Parvar* (see Patol).
- Patel* (Coorg)—Village headman appointed by Government.
- Patol* (*Trichosanthes dioica*)—A vegetable crop.
- Peshkash* (Madras)—The fixed land revenue payable to Government on all permanently-settled estates.
- Pimakoottai or pouna*—The mast wood.
- Ponnagantikura* (*Alternanthera sessilis*)—A vegetable crop.
- Poramboke* (Madras)—Lands reserved for public or village communal purposes.
- Pot indams* (Bombay)—Plots of alienated land in Khalsa villages.
- Pot khardb* (Berar)—The unculturable area included in a survey number.
- Puliyavara* (*Oralis corniculata*)—A vegetable crop.
- Ragi* (see Marua).
- Randhuni* (see Ajmud).
- Rayatwari*—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.
- Sabai grass* (*Ischaemum Augustifolium*)—A fibre plant.
- Sank-alu* (*Pachyrhizus angulatus*)—A root crop.
- Sapodilla* (*Achras Sapota*)—A fruit.
- Sebestan* (*Cordia Myza*)—A fruit.
- Shanbóg* (Coorg)—A village accountant appointed by Government.
- Shrotriem* (Madras)—Village held on grant (originally to Brahmins), wholly or partially revenue-free.
- Siris tree or vagai* (*Albizzia Lebbeck*)—A non-food crop.
- Sorrell* (*Rumex vesicarius*)—A vegetable crop.
- Sother*—Radish.
- Swank* (*Panicum frumentaceum*)—A food grain.
- Talukdari* (Bombay)—A form of proprietary right in force in the northern districts of Bombay.
- Tejpat* (*Cinnamomum Tamala* and *C. obtusifolium*)—A spice.
- Thathameda* (Upper Burma)—Household tax.
- Thattan payara* (see Barbati).
- Thekadar* (Central Provinces)—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.
- Thetke grass* (*Imperata arundinacea*)—A small perennial grass used chiefly for thatching purposes.
- Thugyi* (Burma)—A village headman.

APPENDIX C—concluded.

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—concluded

- Til* (*Sesamum indicum*).—An oilseed.
- Uchke* (*Momordica muricata*).—A vegetable crop.
- Udai* (*Acacia eburnea*).—A thorny tree used as fuel or for fencing purposes.
- Udhad-jamabandi* (Bombay).—A proprietary tenure subject to fixed assessment.
- Umbli* (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.
- Unda* (*Pongamia glabra*).—An oilseed.
- Urad* (*Phaseolus radiatus*).—Black gram.
- Wudalu or barti* *Panicum flavidum*).—A food grain.
- Zamindar*.—The holder of an estate on a fixed assessment under a deed of permanent ownership granted by Government.
- (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.
- Zamindari*.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.
- (United Provinces).—An undivided estate held in joint tenure.

APPENDIX D

ALPHABETICAL LIST OF CROPS CULTIVATED IN INDIA AND THEIR CLASSIFICATION
IN TABLE IV

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Agasi, agati or avati	<i>Sesbania grandiflora</i>	40. Fruits and Vegetables including root crops.
Agave	<i>Agave</i> spp.	25. Fibres—others.
Ajmud or Randhuni	<i>Carum Roxburghianum</i>	20. Condiments and spices.
Ajwan or Bishop's weed	<i>Carum Copticum</i>	20. " " "
Akunkura (<i>see</i> <i>Chrysanthemum</i>)
Al (<i>see</i> <i>Morinda</i>)
Aloes	<i>Aloe vera</i>	37. Drugs and Narcotics— others.
Alya (<i>see</i> <i>Cress</i>)
Amada or Mamidi allam	<i>Curcuma Amada</i>	20. Condiments and spices.
Amaranthus	<i>Amarantus</i>	41. Misc. food crops.
Ampazham (<i>see</i> <i>Plum</i>)
Anise seed	<i>Pimpinella Anisum</i>	20. Condiments and spices.
Apple, wood	<i>Feronia elephantum</i>	40. Fruits and Vegetables including root crops
" Rose	<i>Eugenia Jambos</i>	40. " " "
" Custard	<i>Anona squamosa</i> and <i>A. reticulata</i>	40. " " "
Areca nut or Betel nut	<i>Areca Catechu</i>	37. Drugs and Narcotics— others.
Arhar or pigeon pea	<i>Cajanus indicus</i>	10. Other food grains, etc.
Arnatto or Arnotto	<i>Bixa Orellana</i>	30. Dyes and Tanning Materials—others.
Arrowroot, West Indian	<i>Maranta arundinacea</i>	41. Misc. food crops.
" Wild or East Indian	<i>Curcuma angu-tifolia</i>	41. " " "
Artichoke	<i>Cynara Scolymus</i> or <i>Cen- tauria Cardunculus</i>	40. Fruits and Vegetables including root crops.
Arum (edible), Kachu or Kachalu	<i>Colocasia Antiquorum</i>	40. " " "
Arunelli (<i>see</i> <i>Gooseberry</i> , country star)
Bajra (<i>see</i> <i>Millet</i>)
Barbati, Lobia, Jenugulu, Thattan-payara or Chowli (<i>Asparagus</i>)	<i>Vigna Catjang</i>	10. Other food grains, etc.
Barley	<i>Hordeum vulgare</i>	4. Barley.
Barti (<i>see</i> <i>Wudalu</i>)
Basil, sweet	<i>Ocimum Basilicum</i>	37. Drugs and Narcotics— others.
Beans	<i>Phaseolus lunatus</i>	40. Fruits and Vegetables including root crops.
" <i>Asparagus</i> (<i>see</i> <i>Barbati</i>)
" Sword or Makhan Sim	<i>Canavalia ensiformis</i> , <i>C. gladiata</i>	40. Fruits and Vegetables including root crops.
" French	<i>Phaseolus vulgaris</i>	40. " " "
" Goa	<i>Psophocarpus tetragonolobus</i>	40. " " "
" Indian, Ohikkudukayalu, or Popat	<i>Dolichos lablab</i>	40. " " "
" Kidney, Moth, or Kulpayaru	<i>Phaseolus aconitifolius</i>	40. " " "
" Soy	<i>Glycine hispida</i>	40. " " "
Beetroot	<i>Beta vulgaris</i>	40. " " "
Bel	<i>Ægle Marmelos</i>	40. " " "
Betel vine	<i>Piper Betle</i>	37. Drugs and Narcotics— others.
" nut (<i>see</i> <i>Arecanut</i>)
Bhindi (<i>see</i> <i>Hibiscus</i> , edible)
Bilimbi	<i>Averrhoa Bilimbi</i>	40. Fruits and Vegetables including root crops.
Bimb	<i>Cephalandra indica</i>	40. " " "
Bishop's weed (<i>see</i> <i>Ajwan</i>)
Borage, country	<i>Coleus aromaticus</i>	37. Drugs and Narcotics— others.
Brinjal	<i>Solanum Melongona</i> , <i>S. longum</i>	40. Fruits and Vegetables including root crops.
" bogoda or nela mulaka	<i>Solanum xanthocarpum</i>	37. Drugs and Narcotics— others.
Buck wheat (<i>see</i> <i>Wheat</i>)

APPENDIX D—continued.

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Cabbage	<i>Brassica oleracea</i>	40. Fruits and Vegetables including root crops.
Caraway or Jia	<i>Carum Carui</i>	20. Condiments and spices.
„ Black or Shahjira	<i>Carum Bulbocastanum</i>	20. „ „ „
Cardamom Aromatic	<i>Anomum aromaticum</i>	20. „ „ „
„ greater	„ <i>subulatum</i>	20. „ „ „
„ lesser	<i>Elettaria Cardamomum</i>	20. „ „ „
Carob or Locust tree	<i>Cerantia Siliqua</i>	39. Fodder crops.
Carrot or Gajar	<i>Daucus Carota</i>	40. Fruits and Vegetables including root crops.
Cashew nut	<i>Anacardium occidentale</i>	40. „ „ „
Cassava	<i>Manihot utilisissima</i> and <i>M. palmata</i>	40. „ „ „
Castor	<i>Ricinus communis</i>	17. Castor.
Cauliflower	<i>Brassica oleracea</i>	40. Fruits and Vegetables including root crops.
Celery	<i>Apium graveolens</i>	10. „ „ „
Chaplash (<i>see</i> Sam tree)
Chayroot	<i>Oldenlandia umbellata</i>	30. Dyes and Tanning Materials—others.
Cheena (<i>see</i> Millet)
Cheik (<i>see</i> Job's Tear)
Chicory	<i>Cichorium Intybus</i>	40. Fruits and Vegetables including root crops.
Chickling Vetch (<i>see</i> Vetch)
Chillies	<i>Capsicum sp.</i>	20. Condiments and spices.
Chikkudukayalu (<i>see</i> Beans, Indian)
Cholum (<i>see</i> Millet)
Cholanathu (fodder Cholum)	<i>Andropogon Sorghum</i>	39. Fodder crops.
Chowli (<i>see</i> Barbati)
Chrysanthemum, Akunkura, or Jevandi	<i>Chrysanthemum coronarium</i>	42. Miscellaneous non-food crops.
Cinchona	<i>Cinchona sp.</i>	35. Cinchona.
Cinnamon	<i>Cinnamomum zeylanicum</i>	20. Condiments and spices.
Citron or lime or lemon	<i>Citrus medica</i>	40. Fruits and Vegetables including root crops.
Cloves	<i>Eugenia caryophyllata</i> or <i>Caryophyllus aromaticus</i>	20. Condiments and spices.
Coconut	<i>Cocos nucifera</i>	16. Coconut.
Coffee	<i>Coffea arabica</i>	32. Coffee.
Coriander	<i>Coriandrum sativum</i>	20. Condiments and spices.
Cotton	<i>Gossypium sp.</i>	23. Cotton.
Cress	<i>Lepidium sativum</i>	40. Fruits and Vegetables including root crops.
Cucumber	<i>Cucumis sativus</i>	40. „ „ „
Cumbu (<i>see</i> Millet)
Cumin	<i>Cuminum Cyminum</i>	20. Condiments and spices.
Custard Apple (<i>see</i> Apple)
Dani	<i>Nipa fruticans</i>	42. Miscellaneous non-food crops.
Date palm (<i>see</i> Palm)
Dhaincha	<i>Sesbania aculeata</i>	42. Miscellaneous non-food crops.
Dhatura	<i>Datura alba</i>	37. Drugs and Narcotics— others.
Dill or Sowa	<i>Peucedanum graveolens</i>	18. Oilseeds—others.
Dividivi	<i>Casalpinia coriara</i>	30. Dyes and Tanning Materials—others.
Drumsticks or Horse-radish	<i>Moringa pterygo-prema</i>	40. Fruits and Vegetables including root crops.
Elephant foot, Zamirkand or Ol	<i>Amorphophallus campanulatus</i>	10. „ „ „
Elephant yam	<i>Tryphonium trilobatum</i>	40. „ „ „
Fennel	<i>Foeniculum vulgare</i>	20. Condiments and spices.

APPENDIX D—continued.

ALPHABETICAL LIST OF CROPS—continued.

NAME OF CROP.		Heads of classification in Table IV.
English or Vernacular.	Botanical.	
Fenugreek	<i>Trigonella foenum-græcum</i>	20. Condiments and spices,
Field Vetch (<i>see</i> Vetch)		
Fig	<i>Ficus Carica</i>	40. Fruits and Vegetables including root crops.
Flea-bane, purple	<i>Vernonia anthelmintica</i>	37. Drugs and Narcotics— others.
Flowers	42. Miscellaneous non-food crops.
Gajar (<i>see</i> Carrot)		
Garlic	<i>Allium sativum</i>	20. Condiments and spices.
Garmal	<i>Coleus barbatulus</i>	40. Fruits and Vegetables including root crops.
Gawar (<i>see</i> Vetch)		
Ginger	<i>Zingiber officinale</i>	20. Condiments and spices.
Gon bean (<i>see</i> Bean)		
Gondi (<i>see</i> Millet)		
Gooseberry, Cape—or tepari	<i>Physalis peruviana</i>	40. Fruits and Vegetables including root crops.
" Country star or Arunelli	<i>Phyllanthus distichus</i>	40. " " "
Goose foot	<i>Chenopodium album</i>	40. " " "
Gourd, Snake	<i>Tichosanthes anguina</i>	40. " " "
" Bottle	<i>Lagenaria vulgaris</i>	10. " " "
" Towel	<i>Luffa acutangula</i>	10. " " "
" Red or melon pumpkin	<i>Cucurbita maxima</i>	40. " " "
" Melon, white	<i>Benincasa cerifera</i>	40. " " "
Gram	<i>Cicer arietinum</i>	9. Gram.
" Field	<i>Phaseolus trilobus</i>	10. Other food grains, etc.
" Green or Mung	<i>Phaseolus Mungo</i>	10. " " "
" Horse or Kulthi	<i>Dolichos biflorus</i>	10. " " "
" Black or Urad (Matikalai)	<i>Phaseolus radiatus</i>	10. " " "
Grape	<i>Vitis vinifera</i>	40. Fruits and Vegetables including root crops.
Groundnut	<i>Arachis hypogæa</i>	15. Groundnut.
Guava	<i>Psidium Guajava</i>	10. Fruits and Vegetables including root crops.
Guinea grass	<i>Panicum maximum</i>	39. Fodder crops.
Gumberiy	<i>Cordia Rothii</i>	40. Fruits and Vegetables including root crops.
Hemp, Indian, or Ganja	<i>Cannabis sativa</i>	36. Indian Hemp.
" Sunn	<i>Crotalaria juncea</i>	25. Fibres—others.
" Decan	<i>Hibiscus cannabinus</i>	25. " "
" Sisal	<i>Agave sisalana</i>	25. " "
Henna	<i>Lawsonia alba</i>	30. Dyes and Tanning Materials—others.
Hibiscus, edible or bhindi	<i>Hibiscus esculentus</i>	40. Fruits and Vegetables including root crops.
Horse-radish (<i>see</i> Drumsticks)
Indian Hemp (<i>see</i> Hemp)
Indian worm wood (<i>see</i> Marukkolundu)
Indigo	<i>Indigofera sumatrana</i> and <i>I. arrecta</i> .	29. Indigo.
Isafgul	<i>Plantago ovata</i>	37. Drugs and Narcotics— others.
Jack fruit	<i>Artocarpus integrifolia</i>	40. Fruits and Vegetables including root crops.
Jambotree (<i>see</i> Plum, black)
Jengula (<i>see</i> Barhati)
Jevandi (<i>see</i> Chrysanthemum)
Jinjili (<i>see</i> Sesamum)
Jina (<i>see</i> Caraway)
Job's Tear or Cheik	<i>Coix lacryma-jobi</i>	10. Other food grains, etc.
Jowar (<i>see</i> Millet)

APPENDIX D—continued.

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV.
English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	40. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	24. Jute.
Kachu or Kaohalu (<i>see</i> Arum)
Kakri (<i>see</i> Melon)
Kalpayaru (<i>see</i> Beans, Kidney)
Kamranga	Averrhoa Carambola	40. Fruits and Vegetables including root crops.
Kanda	Dracontium	40. " "
Kangni (<i>see</i> Millet)
Kankrol	Momordica cochinchinensis	40. Fruits and Vegetables including root crops.
Kaon (<i>see</i> Millet)
Kapok	Eriodendron anfractuosum	25. Fibres—others.
Karola	Momordica Charantia	40. Fruits and Vegetables including root crops
Karuvapilai	Murraya Koenigii	20. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	40. Fruits and Vegetables including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	40. " " "
Kharbuja (<i>see</i> Melon)
Khesari (<i>see</i> Vetch)
Khurfa (<i>see</i> Purslane)
Kidney bean (<i>see</i> Bean)
Kirni	Mimusops hexandra	41. Miscellaneous food crops.
Kodo (<i>see</i> Millet)
Korai (<i>see</i> Matting sedge, Indian)
Kokam (<i>see</i> Mangosteen)
Kolinji or vempali	Tephrosia purpurea	37. Drugs and Narcotics— others.
Koorka	Strobilanthes	40. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (<i>see</i> Gram)
Kutki (<i>see</i> Millet)
Lemon (<i>see</i> Citron)
Lentile	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	40. Fruits and Vegetables including root crops
Lime (<i>see</i> Citron)
Linseed	Linum usitatissimum	12. Linseed.
Lobia (<i>see</i> Barbat)
Locust tree (<i>see</i> Carob)
Lucerne	Medicago sativa	39. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	30. Dyes and Tanning Materials—others.
Mahua	Bassia latifolia and B. lon- gifolia.	41. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makham Sim (<i>see</i> Beans, Sword)
Mango	Mangifera indica	40. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	40. " " "
Mankachu	Alocasia indica	40. " " "
Margosa or Neem tree	Melia azadirachta	42. Miscellaneous non-food crops.
Marians	Bouea burmanica	40. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	20. Condiments and spices.
Marua (<i>see</i> Millet)
Marukkolundu or Indian wormwood	Artemisia vulgaris	42. Miscellaneous non-food crops.

APPENDIX D—continued.

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP.		Heads of classification in Table IV.
English or Vernacular.	Botanical.	
Mast wood	<i>Calophyllum inophyllum</i> .	18. Oilseeds—others.
Mati kalai (see Black gram)
Matting sedge, Indian or Korai	<i>Cyperus corymbosus</i> , C.	25. Fibres—others.
	<i>tegetum</i> .	
Medlar, Indian	<i>Vangueria edulis</i> .	40. Fruits and Vegetables including root crops.
Melon, Kharbuja	<i>Cucumis Melo</i> .	40. " " "
" Kakri	<i>Cucumis Melo</i> var. <i>momor-</i>	40. " " "
	<i>dica</i> .	
" Musk	<i>Cucurbita moschata</i> .	40. " " "
" Water	<i>Citrullus vulgaris</i> .	40. " " "
" White Gourd (see Gourd)
Metha (Fenugreek)	<i>Trigonella foenum-graecum</i>	20. Condiments and spices.
Millet, Bulrush, Bajra or Cumbu	<i>Pennisetum typhoideum</i> .	6. Cumbu or Bajra.
" (Sorghum) or jowar or cholum	<i>Sorghum vulgare</i> .	5. Cholum or Jowar.
" Italian, Kangni, or Kaon	<i>Panicum Italicum</i> or	
	<i>Setaria italica</i> .	10 Other food grains, etc.
" Kodo or Varagu	<i>Paspalum scrobiculatum</i> .	10. " "
" Little, Kutki or Gondli	<i>Panicum miliare</i> .	10. " "
" Marua or Ragi	<i>Elusine Coracana</i> .	7. Ragi or marua.
" Common or Cheena	<i>Panicum milineum</i> .	10. Other food grains, etc.
Mint or Pudina	<i>Mentha arvensis</i> .	20. Condiments and spices.
Morinda or Al	<i>Morinda tinctoria</i> .	30. Dyes and Tanning Materials—others.
Moth (see Bean)
Mulberry	<i>Morus indica</i> .	42. Miscellaneous non-food crops.
Mung (see Gram)
Mustard	<i>Brassica</i> sp. .	14. Rape and Mustard.
Naval (see Plum, black)
Neem tree (see Margosa)
Neerali	<i>Gynocordia odorata</i> .	18. Oilseeds—others.
Niger Seed or Sorguja	<i>Guizotia abyssinica</i> .	18. Oilseeds—others.
Nutmeg	<i>Myristica fragrans</i> .	20. Condiments and spices.
Oats	<i>Avena sativa</i> .	39. Fodder crops.
Odanula (reeds)	<i>Ochlandia Rheedii</i> .	42. Miscellaneous non-food crops.
Ol (see Elephant foot)
Onion	<i>Allium Ceba</i> .	20. Condiments and spices.
Opium	<i>Papaver somniferum</i> .	31. Opium.
Orache, garden (see spinach)
Oranges	<i>Citrus Aurantium</i> .	40. Fruits and Vegetables including root crops.
Palm, Date	<i>Phoenix sylvestris</i> .	22. Sugar—others.
" Palmyra	<i>Borassus flabellifer</i> .	22. " " "
Papay	<i>Carica papaya</i> .	40. Fruits and Vegetables including root crops.
Parvar or Patol	<i>Trichosanthes dioica</i> .	40. " " "
Peach	<i>Prunus persica</i> .	40. " " "
Peas	<i>Pisum sativum</i> or <i>Pisum</i> <i>arvense</i> .	10. Other food grains, etc.
Peanut (see Groundnut)
Pepper	<i>Piper</i> or <i>Capsicum</i> .	20. Condiments and spices.
" Black	<i>Piper nigrum</i> .	20. " " "
" Long	<i>Piper longum</i> .	20. " " "
Pigeon or bottle grass	<i>Setaria glauca</i> .	10. Other food grains, etc.
Pigeon pea (see Arhar)
Pimakottai, Ponna (see Mastwood)
Pine apple	<i>Ananas sativa</i> .	40. Fruits and Vegetables including root crops.
Plantain	<i>Musa sapientum</i> .	40. " " "
Plum, black, Jambo tree or Naval	<i>Eugenia Jambolana</i> .	40. " " "
" Hog, or Ampazham	<i>Spondias mangifera</i> .	40. " " "
Poi (see Spinach)

ALPHABETICAL LIST OF CROPS—*contd.*

NAME OF CROP		Heads of classification in Table IV.
English or Vernacular	Botanical	
Pomegranate	<i>Punica granatum</i> . . .	40. Fruits and Vegetables including root crops.
Pomelo	<i>Citrus decumana</i> . . .	40. " " "
Ponnagantikura	<i>Alteinanthera sessilis</i> . . .	40. " " "
Potato	<i>Solanum tuberosum</i> . . .	40. " " "
" Sweet	<i>Ipomoea Batatas, Batatas edulis.</i>	40. " " "
Pudina (<i>see</i> Mint)
Puliyavaia	<i>Oxalis corniculata</i> . . .	40. Fruits and Vegetables including root crops.
Pumpkin	<i>Cucurbita pepo</i> . . .	40. " " "
Pumpkin Melon (<i>see</i> Gourd red)
Radish or Sother	<i>Raphanus sativus</i> . . .	40. Fruits and Vegetables including root crops.
Ragi (<i>see</i> Millet)
Randhuni (<i>see</i> Ajmud)
Rapeseed	<i>Brassica sp</i> . . .	14. Rape and Mustard.
Raspberry	<i>Rubus lasiocarpus</i> . . .	40. Fruits and Vegetables including root crops.
Rhea	<i>Boehmeria niven</i> . . .	25. Fibres—others.
Rice	<i>Oryza sativa</i> . . .	2. Rice.
Rose apple (<i>see</i> Apple)
Roselle	<i>Hibiscus subdariffa</i> . . .	40. Fruits and Vegetables including root crops.
Rubber (India)	<i>Hevea brasiliensis, manihot Glaziovii</i>	42. Miscellaneous non-food crops.
Sabai grass	<i>Ischomum angustifolium</i>	25. Fibres—others.
Safflower	<i>Carthamus tinctorius</i> . . .	30. Dyes and Tanning Materials—others.
Saffron	<i>Crocus sativus</i> . . .	30. " " "
Sage	<i>Salvia officinalis</i> . . .	20. Condiments and spices.
Sam tree or Chaplash	<i>Artocarpus Chaplasha</i> . . .	42. Miscellaneous non-food crops.
Sank-alu	<i>Pachyrrhizus angulatus</i> . . .	40. Fruits and Vegetables including root crops.
Sapodilla	<i>Achras Sapota</i> . . .	40. " " "
Sawan (<i>see</i> Swank)
Sebestan	<i>Cordia myxa</i> . . .	40. Fruits and Vegetables including root crops.
Senna	<i>Cassia angustifolia and C. ovata.</i>	37. Drugs and Narcotics— others
Sesamum, til or jinjili	<i>Sesamum indicum</i> . . .	13. Sesamum.
Shahjira (<i>see</i> Caraway, black)
Shama (<i>see</i> Swank)
Singhara or water caltrop	<i>Trapa bispinosa</i> . . .	40. Fruits and Vegetables including root crops.
Siris tree or vagai	<i>Albizzia Lebbek</i> . . .	42. Miscellaneous non-food crops.
Sisal hemp (<i>see</i> Hemp)
Soapnut or Kumkudu-Kaya	<i>Sapindus trifoliatus</i> . . .	37. Drugs and Narcotics— others.
Sorguja (<i>see</i> Niger seed)
Sorrell	<i>Rumex vesicarius</i> . . .	40. Fruits and Vegetables including root crops.
Sowa (<i>see</i> Dill)
Sother (<i>see</i> Radish)
Soy bean (<i>see</i> Bean)
Spelt wheat (<i>see</i> Wheat)
Spinach	<i>Spinacea oleracea</i> . . .	40. Fruits and Vegetables including root crops.
" Indian or poi	<i>Basella alba</i> . . .	40. " " "
" Mountain, or Garden Orache	<i>Atriplex hortensis</i> . . .	40. " " "
Strawberry	<i>Fragaria vesca</i> . . .	40. " " "
Sugarcane	<i>Saccharum officinarum</i> . . .	21. Sugarcane.

APPENDIX D—concluded.

ALPHABETICAL LIST OF CROPS—concl'd.

NAME OF CROP		Heads of classification in Table IV.
English or Vernacular	Botanical	
Sunflower	<i>Helianthus Annuus</i>	18. Oilseeds—others.
Swallow-wort	<i>Calotropis</i> sp.	25. Fibres—others.
Swank, Sawan, or Shama	<i>Panicum frumentaceum</i>	10. Other food grains, etc.
Sweet flag	<i>Acorus Calamus</i>	37. Drugs and Narcotics— others.
Sweet potato (<i>see</i> Potato)
Tamarind	<i>Tamarindus indica</i>	20. Condiments and spices.
„ Manila	<i>Pithecolobium dulce</i>	40. Fruits and Vegetables including root crops.
Taramira	<i>Eruca sativa</i>	14. Rape and Mustard.
Tea	<i>Camelia Thea</i>	33. Tea.
Tejpat	<i>Cinnamomum Tamala</i> and <i>C. obtusifolium</i> .	20 Condiments and spices.
Tepari (<i>see</i> Gooseberry)
Thattai-payara (<i>see</i> Barbati)
Thetkè (grass)	<i>Imperata arundinacea</i>	42. Miscellaneous non-food crops.
Til (<i>see</i> Sesamum)
Tobacco	<i>Nicotiana Tabacum</i> and <i>N.</i> <i>Rustica</i> .	34. Tobacco.
Tomato	<i>Lycopersicum esculentum</i>	40. Fruits and Vegetables including root crops.
Tori, Toria	<i>Brassica Napus</i>	14 Rape and Mustard.
Turmeric	<i>Curcuma longa</i>	20. Condiments and spices.
Turnip	<i>Brassica Rapa</i>	40. Fruits and Vegetables including root crops.
Uchhe	<i>Momordica mucicata</i>	40. „ „ „
Udai	<i>Acacia churnea</i>	42. Miscellaneous „ non-food crops.
Unda	<i>Pongamia glabra</i>	18. Oilseeds—others.
Urad (<i>see</i> Gram)
Varagu (<i>see</i> Millet)
Vagai (<i>see</i> Siris tree)
Vempali (<i>see</i> Kolinji)
Voteh, Field or gawar	<i>Cyamopsis psoralioides</i>	39. Fodder crops.
„ Chickling or khesari	<i>Lathyrus sativus</i>	10. Other food grains, etc.
Water caltrop (<i>see</i> Singhara)
„ melon (<i>see</i> Melon)
Wheat	<i>Triticum sativum</i>	3. Wheat.
„ Buck	<i>Fagopyrum esculentum</i>	10. Other food grains, etc.
„ Spelt	<i>Triticum sativum</i> var <i>Spelta</i> .	3. Wheat.
Wood apple (<i>see</i> Apple)
Wudalu or barti	<i>Panicum flavidum</i>	10. Other food grains, etc.
Yams	<i>Dioscorea</i> sp.	40. Fruits and Vegetables including root crops.
Zaminkana (<i>see</i> Elephant foot)
